# DAILY DEMOCRAT-FORUM

LARGEST CIRCULATION OF ANY DAILY PAPER IN ANY MISSOURI TOWN ITS SIZE.

VOLUME 6. MARYVILLE, MISSOURI. TUESDAY, AUGUST 3, 1915. NO. 52.

## NORMAL IS NEAR END; FACULTY OFF

WAS MOST SUCCESSFUL AND BEST ATTENDED QUARTER.

## MANY TEACHERS PLAN TO TAKE EXTRA STUDY

Tutors Will Leave Soon for Schools, to Homes or On Visits—Regular Term Opens September 8.

The most successful and best attended summer quarter in the history of the Maryville State Normal school will end tomorrow, after an almost continuous session since May 26. The school in this quarter reached a record attendance of 539 pupils, compared to a total of 520 last year.

With the close of the summer quarter tomorrow will also see the rapid egress of both students and faculty members, until the fall quarter of the regular 1915-1916 term begins, September 8.

But many of the most industrious and studious students and faculty members will not be content to spend the month intervening until school begins again, in resting by the seaside, in the mountains, visiting or at home. Many will hie to Chicago university to take up a six weeks' course in special work for teachers.

**How They Will Spend Vacation.**

This is how some of the faculty members will spend their vacations:

President Ira Richardson intends to go with Mrs. Richardson to some place that she may receive special medical treatment, probably to Chicago.

Dean G. H. Colbert, accompanied by the entire family, intends to leave for Chicago August 15, where the family will spend the vacation period.

Prof. H. P. Swinehart and family left Saturday for Chicago, where Prof. Swinehart intends to take up special work in the University of Chicago.

C. E. Wells, librarian, accompanied by his siters, Miss Mabel Wells, teacher in the high school here, and Miss Edith Wells of Lovelock, Nev., will leave Saturday for San Francisco to attend the exposition.

Prof. A. J. Cauffield will leave soon for California, where he will join a geological research expedition, which will make investigations through that part of the country.

Prof. M. W. Wilson will go to Detroit, Mich., and to his home in Michigan to spend the vacation.

**He Leaves the Normal.**

M. W. Maxwell, secretary to President Richardson, will leave this week for Warrensburg, his home. He will not return for the next Normal term.

Miss Celia Hutt has already departed for her home at Skidmore. She will not return next term.

Prof. F. P. Wagg will go to his home in Maine for the vacation period.

Prof. J. E. Cameron will probably go to Duluth, Minn., soon, where he will spend some time on his farm nearby.

Prof. H. A. Foster intends to go to Tennessee to visit his parents during August.

Prof. H. A. Miller intends to spend the vacation period in study at Chicago university.

Prof. S. E. Davis, new tutor in the Normal, accompanied by Mrs. Davis and daughter, intends to go to Chicago within a few days, where he will take the six weeks' course in the Chicago university.

**Take Pacific Coast Tour.**

Miss Mary M. Hughes and Miss Beatrix Winn will go to the Pacific coast for a visit. Later Miss Hughes will go to her home in Colorado. Miss Winn will spend a few days at her home in St. Joseph before going west. She will later visit at the summer cottage in Manitou, Col.

Miss Mildred Miller and Miss Beulah Brunner will take the six weeks' course in the Chicago university this month and the first part of September.

Prof. R. A. Kinnaird will go to his home in Carrollton for a short vacation. He will return here the latter part of August to aid in the agricultural displays at the county fair.

E. A. Singleton will go to his home in Shelbina.

Miss Bertha Daniels will go to her home in Springfield.

Miss Dorothy Kaucher will spend the vacation at her home in St. Joseph.

Prof. Walter Hanson will probably leave within a few days for Grand Rapids, Mich., for a visit.

George Palfreyman intends to spend the month at his home in St. Joseph.

Miss Fannie Hope, who has been attending Chicago University in Chicago, returned to Maryville Saturday.

## NAB MAN GONE ONE YEAR

Taylor Gilbert Fined $2 by City Today for Giving Liquor to Dave Farris

Taylor Gilbert, charged by the city in July, 1914, with three others with having given or sold liquor to David Farris, a confirmed drunkard, was arrested yesterday by Chief Moberly and fined $2 and costs in police court this morning, when he pleaded guilty to the charge. He has been out of Maryville since the charge was placed against him.

David Scull, one of those arrested on the same charge a year ago, was fined $25, while the charge against Chester Gilbert was dismissed for lack of evidence.

## U. S. SEEKS AID

ASKS SOUTH AND CENTRAL AMERICA TO HELP PACIFY MEXICO

## WILL CONFER THURSDAY

Envoys From Six Countries of Hemisphere to See Lansing on Move—Carranza Claims Domination.

Washington, Aug. 3.—The United States has decided to ask the co-operation of South and Central America in the next step to restore peace in Mexico. The ambassadors from Argentina, Brazil and Chile and the ministers from Bolivia, Uruguay and Guatemala have been asked to confer with Secretary Lansing here Thursday.

With official confirmation of the reoccupation of Mexico City, General Carranza cabled his Washington agency a detailed review of the military situation in Mexico to show the extent of the territory under domination of his forces.

General Obregon, he says, is in possession of Zacatecas and Aguas Calientes and is repairing the railway line to reopen communication with Tampico.

General Gonzales, now having occupied Mexico City, is to immediately repair the railroad to Queretaro and continue pushing north.

General Iturbide, now being in complete control of the state of Sinaloa, General Carranza says, will immediately start into Sonora, hitherto one of the Villa strongholds. Tamaulipas, Neuvo Leon and the greater portion of Coahuila are now in control of General Trevino's troops.

From this General Carranza cabled: "You will see the Constitutionalist government controls the greater part of the country. It only expects not to be interrupted, so that it may accomplish a definite work of peace and reconstruction of the republic."

**CALL OFF BASE BALL GAME.**

Boosters Will Not Play All-Stars of St. Joseph Today.

On account of rain the game to have been played at the Normal grounds this afternoon between the Maryville Boosters and the St. Joseph All-Stars has been postponed. A game is to be played here between the Boosters and Guilford Thursday, if the weather and grounds are in condition.

**SUES ON $150 ACCOUNT.**

A. H. Garrett, Clearmont, Says Edward E. Moore Owes On Lumber Bill.

A. H. Garrett, lumber dealer of Clearmont, filed suit in circuit court today against Edward E. Moore, also of Clearmont, for $150.44, said to be due on an account for furnishing material for a house built by Moore last fall.

**Miss Burris Home.**

Miss Helen Burris has returned from a visit with her cousin, Mrs. H. B. Clarkson, of Macon, Mo.

## TO VOTE ON BONDS

NODAWAY TOWNSHIP PETITIONS FOR ELECTION ON $35,000 ISSUE.

## WOULD IMPROVE ROADS

County Court Will Call Special Vote for Week of August 22—Fifty-Six Voice Approval.

A special election to vote on a proposition to issue $35,000 in special road ship will be called for probably August shp will be called for probably August 25 or 26 by the county court, as a result of the presentation of two petitions for such an election today. One petition contained the names of forty-four voters of that township, while the other contained the names of twelve. Only twenty names were necessary.

It is proposed to issue the $35,000 in bonds, which will draw not more than 6 per cent interest and that all shall be paid in fifteen annual installments, the first to be made two years hence. This is the same as governed the issuance of bonds of this nature in Polk, Union, Lincoln and Hughes townships.

The need of road and culvert improvements is apparent throughout that township, residents there say. The recent floods also caused many more bridges and culverts to be damaged or washed out, so that many roads are impassable or in bad condition for traffic.

**May Vote in Monroe, Too.**

The county court will probably not formally call the election before tomorrow, but W. M. Blackford, presiding judge of the county court, said this morning such an election would be called for some time during the week beginning August 22, probably August 25 or 26.

A petition asking the county court to call a special election to vote on a proposition to issue $25,000 in special road improvement bonds in Monroe township also is now being submitted to voters of that township. It will be presented to the county court probably this week.

**MUST PETITION FOR CHANGE.**

Hughes Township Improvers Will Seek Sentiment of Property Owners.

The leaders for the improvement must circulate a petition before the various property owners of that vicinity before the county court will order the condemnation of the proposed 66-foot land strip for improving the public road between Graham and Maitland. That was the answer made by the court members to the delegation which waited on the court yesterday afternoon relative to the proposition.

If the property owners and residents in that vicinity appear to desire the change, the county court will then act.

**STORM PREVENTS COUNTY GAMES**

Base Ball Schedule for Yesterday Deferred by Weather.

The game between the Skidmore and Clearmont teams, scheduled for Sunday afternoon at Clearmont, was called off on account of the storm. Next Sunday afternoon Clearmont will play the Shenandoah, Ia., team if the weather will permit. The game will be on the Clearmont grounds.

On account of the storm the game between the Burlington Junction and Clarinda, Ia., teams at Bever park, Sunday afternoon was called off at the end of the second inning. The score at that time was 3 to 1 for the Clarinda team.

The game planned between the Bolckow and Graham teams at Graham Sunday afternoon was deferred because of the weather..

**GRAHAM CHAUTAUQUA TO END.**

Last of the Week's Entertainment to Be Given Tonight.

The Graham Chautauqua, which opened Thursday, has been well attended and the programs have been unusually interesting. Sunday brought out a larger crowd than the previous days. The lectures, both afternoon and evening, were given by Dr. Bruce Brown of Los Angeles, Cal. The Hon. Caleb Powers of Kentucky lectured yesterday before the largest audience of the week.

The program will close tonight with a porgram by the Fulton Marine band and orchestra. The event was under the direction of the Jones Chautauqua system.

Florian Gex arrived Sunday from Texas to spend a while visiting his parents, Mr. and Mrs. R. B. Gex, living southwest of the city.

## KICK AGAINST ROAD CHANGE

Twelve Residents Ask County to Leave Road Between Green and Polk Township.

A petition containing the names of twelve residents of that neighborhood was presented to the county court today asking the county court to reconsider action of a month ago, and not change the public road between Polk and Green township, as proposed.

The former petition sought to have the road, which now winds around eighty acres of the John Miller farm, abandoned and open another directly through the Miller farm, cutting off the eighty acres.

The opponents claim that such a proposition would necessitate much expense in bridge building, that the route is through rough land and that it would work a hardship on several property owners there.

The petition was signed by Frank N. Miller, Joseph Miller, John Murphy, James Murphy, J. N. Wiseman, A. E. Cockayne, E. P. Knabb, M. P. Gingrich, Byron Croy, R. T. Hughbanks, S. H. Shell and C. J. Duncan.

**MRS. B. H. COOPER DEAD.**

Has Stroke of Paralysis After Hearing of Drowning of Mrs. Frank Barton.

Mrs. B. H. Cooper, 54 years old, died at 5 o'clock yesterday afternoon at the Cooper home, near Gaynor City. Mrs. Cooper's death was caused by hemorrhage of the brain, which resulted from a stroke of paralysis. This sudden attack was believed to be pre-induced by the shock to Mrs. Cooper of learning of the sudden death by drowning of Mrs. Frank Barton and small son Saturday afternoon. The Barton and Cooper families were close neighbors and Mrs. Cooper was deeply grieved over the death of her friend.

While on a visit to relatives in Illinois last October, Mrs. Cooper suffered a stroke of paralysis. She rallied from this and it was thought she would entirely recover, but her condition at times was serious.

Mrs. Cooper's maiden name was Ida Higgins, and she was born February 5, 1859, in Ohio. She was married to Mr. Cooper September 11, 1879. After moving from Illinois the Coopers settled for a time in Taylor county, Iowa, and came to Nodaway about thirty years ago and made their home here since. Mrs. Cooper is survived by her husband and nine children. The children are Prof. Bert Cooper of this city, county superintendent of schools; Claude Cooper of Gaynor, Guy Cooper, Fred Cooper and Mrs. Gordon Miller of Sheridan, Rolla, Frank, Myrtle and Hazel Cooper, living at home.

No arrangements have yet been made for the funeral, but it probably will be held tomorrow afternoon at the home. Sunday, July 25, the Cooper family held a reunion at the home place, and at that time Mrs. Cooper was feeling unusually well and enjoyed the day to its fullest in the society of her children. Prof. Cooper of this city went to his home yesterday. Miss Irilla Meeker and Miss Irene Rutledge of Grant City, relatives of the family also went to Gaynor yesterday, called by Mrs. Cooper's illness.

**MRS. NANCY J. FOSTER, 80, DEAD.**

Funeral Services Will Be Held Thursday Afternoon at Residence.

Mrs. Nancy J. Foster, 80 years old, the widow of John W. Foster, died at 1:30 o'clock this morning at the family home, 319 East Fourth street.

Mrs. Foster had been in failing health for more than a year past. She was born in Richmond, Ross county, O., October 6, 1834. On March 28, 1854, she was married to John W. Foster, who died several years ago. She is survived by six children. They are Misses Mary, Jennie, Effie and Ella Foster, and William Foster of this city and Harry Foster of Des Moines, Ia. Harry Foster and his wife arrived in the city Sunday, called by his mother's illness.

The funeral services will be held at the home at 3 o'clock Thursday afternoon, conducted by the Rev. John H. Hubbard, pastor of the Buchanan Street Methodist church. The burial will be in Miriam cemetery.

**Visit at Osborn Farm.**

Misses Ola and Ora King spent Sunday visiting their uncle, William Osborn and family, at the Osborn farm, six miles northwest of the city.

**To Visit Miss Adcock.**

Mrs. W. H. Tucker of Ravenwood came to Maryville Sunday to visit Miss Golda Adcock. Miss Adcock has been very ill for several days.

Mr. and Mrs. J. F. Gray left this morning for Starkweather, N. D., to visit their daughter, Mrs. C. A. Ellis.

## NEGROES TO MEET

AFRO-AMERICAN CLUB PLANS EMANCIPATION CELEBRATION.

## TO START WITH PARADE

Procession, Headed by 26-Piece Band, in Morning Precedes Speaking, Songs, Dance and Athletics.

Rain and cold August weather is not to dampen the ardor and spirits of the Afro-American club, which will give an emancipation celebration in the Franklin school grounds tomorrow, according to announcement made today. Others may await the sunshine and warmth, but not this aggregation of the young negroes of Maryville—unless it should happen to be raining pitchforks tomorrow.

Besides the entertainments already announced for tomorrow, Aaron Williams, secretary, announced today that a parade through the business streets will be held at 11 o'clock tomorrow morning, to better advertise the event. The parade will be headed by the twenty-six piece First Regiment band of the Knights of Pythias of Omaha.

The real entertainments will not begin until 1:30 o'clock tomorrow afternoon, however. The day's program provides for a number of addresses, instrumental and vocal numbers, athletic contests, concert at night and a dance in the old armory hall as a finale.

## RIVER IS AT A STANDSTILL

102 Falls But Rises Again—Intermittent Rains Keep Streams Over County Overflowed.

The 102 river and other streams over Nodaway county keep about bank full or overflowed yet, on account of the intermittent rains that continue to fall throughout the streams' drainage sheds. The 102 river here this afternoon was rising slowly as a result of the rains Sunday and yesterday, but fell last night.

The river overflow is still running over the state road several places, but some traffic still goes over that highway

No big rise is on the way here, according to reports from points up stream, though the river here is expected to rise slightly all day.

## TEMPERATURE DOWN TO 53

Weather Damp and Cloudy But Not as Cold as Many Former August Days.

The temperature fell to 53 degrees above zero early this morning, according to J. R. Brink, it being the lowest temperature this season or for two months. The maximum temperature for the 24 hours preceding 7 o'clock this morning was 79 degrees. The rainfall yesterday and last night was .47 of an inch.

That there have been many other colder August days than the one today is verified by the records maintained by Mr. Brink. The fact that it is damp and cloudy, and a raw wind accompanies the chill, makes it appear much cooler, however Some colder August days since 1894 are cited as follows

| | |
|---|---|
| August 3, 1894 | 53 |
| August 1, 1895 | 52 |
| August 27, 1896 | 48 |
| August 20, 1897 | 46 |
| August 1, 1898 | 50 |
| August 31, 1900 | 51 |
| August 3, 1904 | 58 |
| August 27, 1906 | 45 |
| August 20, 1908 | 52 |
| August 26, 1910 | 45 |
| August 29, 1911 | 49 |
| August 4, 1912 | 51 |

**DROP CHARGE AGAINST COFFIN.**

State Allegation of Disturbance Dismissed—Paroled by City—Pays Costs.

The state charge of disturbance held against Frank Coffin was dismissed late yesterday afternoon on payment of costs of about $25 by Coffins brother.

Coffin was also paroled by the city on payment of costs. Coffin was being held in the city jail on three sentences, they being for drunkenness, resisting an officer and assault.

The Coffin family left last night for near Leon, Ia., where they will take up residence on a farm.

**Returns from Vacation.**

Miss Bertha Schmauder, who is employed in the Haines store, has returned to her work after a two weeks' vacation spent with her mother, Mrs. A. M. Schmauder of Burlington Junction.

## FEW FOR COUNTY BOND ISSUE

Two Petitions From Burlington Junction Seeking $300,000 Fund Contain But 11 Names.

That the sentiment over the county appears to be against the proposition to call a special election to vote on a proposition to issue $300,000 in special bonds for good roads is further indicated in two petitions presented to the county court today from Nodaway township.

One contains but seven names of voters in that vicinity while the other contains only four names.

A petition presented from that township yesterday contained twenty-three names.

**CONTRACTS FUTURE FILMS.**

Fern Will Portray "Spartacus," 8-Reel Spectacular Photoplay, Tonight.

A number of feature films have been contracted for by James Ells, proprietor of the Fern, the first of which will appear there tonight. It is "Spartacus" an eight-reel spectacular photoplay which has to do with the warring times of years ago.

Another big feature will be portrayed tomorrow night in "The Isle of Regeneration," by Cyrus Townsend Brady.

## CHANGE IN SITES

CHAUTAUQUA WILL BE HELD ON CENTRAL SCHOOL GROUNDS.

## IS EASILY ACCESSABLE

New Location Insures Better Seating Arrangement, Close in and Dryer Than Normal Park.

The Maryville Chautauqua, August 6 to 12 inclusive, will be held near the northwest corner of the Central school grounds, Second and Market streets, instead of in the Normal park, according to a decision of those in charge this afternoon, in a special conference with the Maryville school board. The change was made on account of the extremely wet ground at the Normal park and inability to haul Chautauqua tents and equipment to the Normal grounds on account of the condition of the streets.

By holding the Chautauqua at the Central school grounds, well drained seating room is assured, it will be of easy access to the entire town, and on paved streets. The lay of the ground there also will furnish a natural amphitheater arrangement, each row of seats being slightly higher up than the one in front.

H. W. Lark, property man for the Redpath-Vawter Chautauqua system, which furnishes the Chautauqua here this season, arrived today and will begin arranging for the erection of the large tent tomorrow morning.

**Albert Bremitt, 63, Dead.**

Albert Bremitt, 63 years old, died last night at his home, at Fourth and Walnut streets. Mr. Bremitt had been sick for some time suffering from a paralytic stroke received several months ago.

No arrangements have yet been made for the funeral.

Mrs. John Porter, who has been ill the last ten days, had an operation performed Sunday at St. Francis hospital.

## BRYAN SPEAKS AT CHAUTAUQUA HERE

NOTED ORATOR, STATESMAN, DEMOCRAT, APPEARS AUGUST 12.

## WILL ADD TO FINAL NUMBER ON PROGRAM

"Grape Juice" Exponent May Be Heard On Season Ticket—Does Not Replace Other Features.

William Jennings Bryan, thrice candidate for president on the Democratic ticket, former secretary of state, and considered the best orator in America today, will speak at the Maryville Chautauqua at 7:30 o'clock, Thursday night, August 12. This announcement came today from H. C. Orchard, assistant manager of the Redpath-Vawter Chautauqua system of Cedar Rapids, Ia., which furnishes the Chautauqua here this season.

That Bryan continues to be the best drawing card on any platform is evidenced by the large crowds that assemble wherever he has spoken since resigning as a member of President Wilson's portfolio. He is considered, without a doubt, the best number on any program, and will be the best here, despite the fact that the entire seven days is to be jammed full of the best of numbers in oratory, music and entertainment of various kinds.

**Will Not Replace Any Number.**

Bryan was with the Redpath-Vawter system when such a howl was made last year over the fact that he continued on the Chautauqua platform although secretary of state. Bryan has just contracted with the Redpath-Vawter system for the season and will appear at only several Chautauquas before appearing on the platform here.

Bryan will not replace any other number on the Chautauqua program. Instead he will merely fill the program all the fuller. The costumed exhibition of children of the different countries visited by the Junior Chautauqua bunch will merely be shortened and precede the address by Bryan. The concert the closing night by Sam Schildkret's Hungarian orchestra also will be shortened, that the address by Bryan might fit in.

The season tickets to the many other Chautauqua numbers will also admit holders to the address by Bryan, which number alone will cost at least 50 cents to those not holding season tickets. The announcement of Bryan's appearance here will no doubt draw a large crowd from all parts of Nodaway county and northwest Missouri.

**SAYS HIS WIFE ABUSED HIM.**

James L. Mozingo Alleges Mate Used Profane Language—Seeks Divorce.

A suit for divorce on the grounds of indignities and abuse was filed in circuit court today by James L. Mozingo of Maryville against Grace May Mozingo. They were married here May 19, 1911, and separated June 1 this year.

## THE PROPOSED BOND ISSUE.

The Democrat-Forum has taken no part so far in the discussion of the proposition to issue bonds for the repair of the county bridges. This is a matter in which the taxpayers of the county are interested above all, and whatever is done must be in accordance with their wishes. The situation is an unfortunate one and one for which no one is to blame. The unprecedented rains this summer have destroyed the bridges and approaches and wrought untold havoc with our roads. It has found the county without a surplus, and the necessity for some sort of action is apparent to all. The same rains, however, that have done this damage have also done irreparable damage to the crops and the prospects of people in every line of business.

So it may be expected that the people will not be in a mood to do more than is absolutely necessary under the circumstances. The Democrat-Forum does not believe that a proposition to issue bonds to the amount of three hundred thousand dollars would carry. It certainly would not unless it could be shown to the satisfaction of the voters that it was necessary to do the work. An issue for half the amount would probably carry. The Democrat-Forum believes that the people will do cheerfully what is shown to be necessary and best.

Whatever is finally agreed upon, however, must be presented and urged in a business-like way. An accurate estimate showing just how many and what bridges are out and what is the necessary cost of repairing them should be made up by those who know and whose recommendations will carry weight. The voters can then tell to a certainty just where the money is going and how much it is going to take. Farmers and business men are all interested equally. Roads must be had, and all fair-minded citizens will see the necessity of doing something to remedy the situation.

## VALUE OF RESERVE BANKS.

From the St. Louis Republic.

The chronic kicker wants to know what use the Federal Reserve Banks are, in view of the fact that the national banks of the United States are now carrying about $800,000,000 of excess reserves and the state banks and trust companies about $500,000,000 more. We make haste to answer: the Federal Reserve banks are of no more use just now than the newly canned fruit is to the housewife in these days of fresh melons, peaches, pears and apples. The canned fruit is simply dead weight on the shelves representing money tied up that profits nobody; it will continue so to be until the time of bleak days and frosty nights, when gardens and orchards take a long vacation. Then the canned fruit will be the housewife's chief resource. And so, when the present wholly unnatural conjunction of a war scare with a tremendous inflow of money from food exports comes to an end, when once more the demand of American business crowds the available credit resources of the nation, the Federal Reserve bank will be worth 10 times what it has cost to carry it through the present period of congested cash, for the banker will rest secure on the solid fact that good commercial paper, thanks to the Federal Reserve bank, will be cash in the day of his need.

### New Garage.

Call at Tilson's garage, northeast corner of square and one-half block east when wanting storage for cars, as we can accommodate 50 to 75 cars now.

We also have livery in connection and can make you reasonable prices with good drivers. We will be prepared in a few days to do all kinds of repair work and will guarantee that the work will be first class and prices right.

Farmers, attention! When in town and you want your car in shelter or repair drive in and your storage will be the same as for team and rig.

TILSON BROTHERS.

### Miss Greeley Leaves.

Miss Katherine Greeley of Kansas City, who has been visiting Miss Ora Barmann, left yesterday for St. Joseph to spend a few days, after which she will return to her home.

### Prof. Landon Home.

Prof. P. O. Landon returned yesterday from Jerseyville, Ill., where he was called by the illness of his mother, Mrs. Mary A. Landon, who is now improving.

### Have Attended Normal Here.

Miss Ruth Linville, Miss Lucy Wanamaker and C. B. Perry, teachers in the Chillicothe public schools, who have been attending the summer Normal here, will leave Thursday for their homes.

### Get License to Marry.

A marriage license was issued yesterday afternoon in the office of the recorder of deeds to Clyde M. Goodpasture, 21, and Miss Nancy Dale Mowry, 19, both of Graham.

### Prof. Swinehart to Chicago.

Prof. H. P. Swinehart, teacher of English and German, and assistant in physical education at the State Normal school, left Saturday for Chicago, where he will enter Chicago University for a six weeks' course of study. Mrs. Swinehart and daughter accompanied him.

### Robinsons to California.

F. P. Robinson and daughter, Mildred, left Sunday night for Los Angeles, Cal., to join Mrs. Robinson and younger daughter, Virginia, who have been spending the past month with her sister, Mrs. Fletcher Irwin. The family will visit places of interest in the west before returning.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Sold by all Druggists, 75c.
Take Hall's Family Pills for constipation.

# BOOSTERS!

**Don't Forget This is BOOSTER WEEK at**

**Berney Harris'**

We think it fitting at this time to announce that we have decided to award a second, third, fourth and fifth premium to the members of the Booster Club. Many of you Boosters are doing good work for us and we wish to show our appreciation of your efforts by making it possible for several of you to obtain a piano for yourself by the payment of a very small amount of cash. At considerable expense we have arranged for four pianos which we shall give to you as specified below, if you want them. These pianos are listed at $300.00. This is the way they will be given:

Second prize—A certificate for $190.00, to apply on the purchase of one of these $300.00 Pianos.
Third Prize—A certificate for $180.00, to apply on the purchase of one of these $300.00 Pianos.
Fourth Prize—A certificate for $170.000, to apply on the purchase of one of these $300.000 Pianos.
Fifth Prize—A certificate for $160.000, to apply on the purchase of one of these $300.000 Pianos.

These certificates are valuable, as the cash that you must pay is less than the regular wholesale price of pianos no better than this one, and in case the person securing one of them does not care to use it, it may be transferred and sold to some one who desires to buy a piano.

What Booster will win the watch Monday, August 16th?
Our windows will be trimmed this week by Booster Miss Brownie Helpley.
Music next Saturday by Booster Miss Mildred Palmer.
Booster Lila Nabler and her Patron Club won the table silverware last week. Booster Bertha Lattin and her Club won second place. They'll have a full set pretty soon.
Be sure to make big purchases this week, and get some of the thousands of extra Booster Coupons being distributed. Help your Booster, and HELP YOURSELF.
The Post Card feature ends on Saturday night of this week. Have you brought your cards in yet?
Our Patron Club Specials this Wednesday are Hats, Caps, Trunks, Suit Cases.
DON'T FORGET THIS IS BARGAIN WEEK AT BERNEY HARRIS'.

## CHERRY CROP HEAVY BUT SHORT.

**Harvest for 1915 Good But Lasted But Little While in Missouri.**

The cherry crop this year was an anomaly. It was one of the largest in years and at the same time one of the shortest. More cherries were harvested in Missouri than there were in 1914 or 1913, yet the season was more than 30 days shorter.

Two years ago cherry picking was under way May 20 and virtually ended July 20. Last year picking began May 20 and the last of the crop was not harvested until August 5.

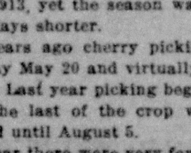

This year there were very few home-grown berries picked before June 1, and a month later there were few growers who had any left, although the yield was extraordinarily large.

The explanation lies in the weather conditions. Early cherries were late in forming because of the abnormally dry April. The late varieties were forced by the phenomenally wet June. The result has been that housewives who depended on the late cherry for her preserves will get none of the home-grown article.

Cherry prices were about normal during the season. The first crop brought fairly good prices for a few days, then the market slumped. The middle crop ran a little higher, then the last crop—black cherries, which usually hang on until August took an upward turn because they had ripened so early that they were sent in with the paler varieties, and the supply at the close of the season was limited.

Misses Grace and Mary and Edward Ferritor spent Sunday at Clyde visiting their uncles, T. F. Merrigan and Gus Enis, and families.

BE SURE ABOUT YOUR EYES

Have them tested (FREE) by our expert Optician. If glasses are needed a proper fitting is Guaranteed.

H. T. CRANE
JEWELER AND OPTICIAN

Guess Work Is DANGEROUS In Fitting Glasses

The old way of fitting glasses by guessing at the kind needed was often more harmful than going without them. NO GUESS WORK NOW. I submit the test, the correction, and the cost to you before you are asked to pay a single cent. You take no risk nor incur any obligation by coming to me about your eyes.

H. L. Raines
JEWELER OPTICIAN
110 W. 3RD ST. JUST A STEP PAST MAIN
MARYVILLE, MO.

## WHAT WOULD MARYVILLE HAVE?

**Statistics at Shenandoah Show Rainfall Was 588,817 Gallons May 1 to July 15.**

Five hundred and eighty three thousand eight hundred and seventeen gallons of water to every acre—this is the amount of rain that has fallen between May 1 and July 15 at Shenandoah, according to the figures worked out by Senator H. I. Foskett, there. The total rainfall has been twenty-one and one-half inches since May 1.

At fifty tons to the car load, it would take a train of about fifty cars to carry all this water. The number of cubic inches of rain was 134,861,760 per acre. In barrels it amounts to 18,533 and stated in pounds is 4,865,141.

Two thousand four hundred and thirty-two tons seem like a great quantity of water but this much fell during that time on each acre of ground, quite enough to grow a crop and with some left over to supply the towns.

## GERMAN-AMERICANS MEET

**Hexamer Hopes For Victory For Kaiser on Seas, Land and Air.**

San Francisco, Aug. 3.—Hope of victory for German and Austrian arms "on the seas, on land and in the air" was voiced here at the eighth biennial convention of the National German-American alliance by Dr. C. J. Hexamer of Philadelphia, president of the organization.

About 600 delegates registered, representing more than 2,000,000 members in the United States and territories.

Dr. Hexamer's reference to the European war was made in the course of his address.

"Germany is fighting today for the principle which will bring world peace nearer to us than all the efforts of pacifists and dreamers," Dr. Hexamer said. "Germany is fighting for the principle of the open door on the oceans as well as on land. If this principle were to receive general recognition many of the causes for future wars would be eliminated.

"Therefore, hail and victory to German and Austrian arms on the seas, on land and in the air."

**Quicksand Swallows Power Plant.**

Hudson, N. Y., Aug. 3.—Four men were killed and four others injured, one of whom will die, when the power plant of the Knickerbocker Cement company submerged in quicksand here. The entire building disappeared. All of the dead men were laborers.

**Deficit For July Is $16,000,000.**

Washington, Aug. 3.—Treasury receipts for July, the first month of the new fiscal year, ran $16,000,000 behind expenditures. A working balance of approximately $100,000,000 is still available from all sources.

## GRAIN AND PROVISIONS

MRS. CHARLES BECKER.

Executed Ex-Policeman's Widow Dressed In Her Mourning Garb.

Photo by American Press Association.

## WANTS BIG FLAGS PAINTED ON U. S. SHIPS

### Kaiser Seeks to Avoid Attacking American Craft.

Washington, Aug. 3.—Germany's first response to the last American note on submarine warfare has come from the admiralty, which has requested that American ships have American flags painted on their sides in proportions large enough to be recognized at a distance by submarine commanders. Many American ships are painting the national colors on their sides now, but it is said they are painted too small.

Ambassador Gerard transmitted the request in a message.

The dispatch brought out no comment in official quarters, but it was plain that evidence of a desire by Germany to avoid attacks on American ships was gratifying.

## FUNERAL OF CHARLES BECKER

**Big Crowd Attends Services In New York Church.**

New York, Aug. 3.—The funeral of Charles Becker, executed in Sing Sing prison Friday for instigating the murder of Herman Rosenthal, was held from the Church of St. Nicholas of Tolentine, the Bronx.

So great was the crowd around the church and the Becker home, nearby, that the police reserves had to be called to handle it. Carriages to take part in the funeral procession extended several blocks from the church. One carriage was filled with floral tributes.

Before the body was taken to the church friends of the former police lieutenant gathered at the house to view the body. Police reserves formed them into a line that stretched for half a mile. Those who saw the casket noticed that it bore the new plate, reading "Charles Becker, Died July 30, 1915." A plate removed by the police bore the allegation that Becker was "Murdered by Governor Whitman."

## COREY BACK FROM FRANCE

**Says Allies Preparing to Continue War Three Years More.**

New York, Aug. 3.—The allies are preparing to continue the war for at least three years more, if necessary, according to William Ellis Corey, former president of the United States Steel corporation, who arrived on the French liner Espagne from Bordeaux.

Mr. Corey said it was problematical as to whether the allies would like to see the United States enter the war, but he thought they would rather have the financial than the military aid of this country.

**Freighter Georgian Is on Duxbury Reef**

San Francisco, Aug. 3.—Life saving crews and tugs went to the assistance of the American-Hawaiian steamship Georgian, on Duxbury reef, a few miles north of the Golden Gate, where the freighter went ashore in a dense fog. Captain Nichols and a crew of more than thirty men are aboard the stranded vessel.

## KILLS THREE AFTER QUARREL ABOUT GIRL

Chicago, Aug. 3.—George H. Jones, forty-eight years old, a garage owner, entered the home of his brother-in-law and shot to death his wife, her sister and her brother and tried to slay his own son. He then entered his automobile, which he had left standing outside, drove home a young woman companion, over whom he had trouble with his wife, and tried to commit suicide.

## SOCIETY and CLUBLAND

By KATE SCHENCK
PHONES—OFFICE 42. HOME 683

**Aid Society to Meet.**

The Ladies' Aid society of the Buchanan Street Methodist church will hold its regular business meeting at 2:30 o'clock tomorrow afternoon at the church. All members are requested to be present as there is important business to come before the meeting.

**Epworth League Entertains.**

The Epworth League of the First Methodist church gave a Japanese social last night at the home of Mr. and Mrs. George Hulet, with Misses Dale and Wave Hulet as hostesses. The rooms were attractive with Japanese decorations and lighted with Jap lanterns. The hours were spent informally and a dainty supper served.

**Mowry-Goodpasture.**

Miss Dale Mowry and Clyde Goodpasture of Graham were married yesterday afternoon in the office of Probate Judge W. A. Conn, who performed the ceremony. The marriage was witnessed by John Gex and Miss Mollie Hall. Mr. Goodpasture and his bride will be at home at the Goodpasture farm, near Graham.

**Mrs. Collins Hostess.**

Mrs. Roy Collins was the hostess of a dinner party given last night at the Linville hotel, complimentary to Mrs. George Tunstall of Kansas City, who is visiting in the city. The guests, who were further entertained with a party at the Empire theater to see Walker Whiteside in "The Melting Pot" were Mrs. Tunstall, Mrs. Conrad Yehle, Miss Lenore Schumacher and Miss Rose Schumacher.

**To Attend Pre-Nuptial Affairs.**

Mrs. J. T. Linville and daughter, Elfreida, will go to St. Joseph tomorrow, where they will be the guests of Mrs. Linville's daughter, Mrs. Earl E. Fisher. They are going to attend a number of pre-nuptial affairs which are to be given by Mrs. Fisher and others, complimentary to Miss Martha Fisher of St. Joseph, whose marriage to Mr. T. A. Becker of Washington, takes place this month.

**Theater Party and Supper.**

Miss Mary Wrinkle and Miss Myrtle Lanning entertained a number of their friends Saturday night with a party at the Fern theatehr, followed by a luncheon at the New York Candy Kitchen. The menu appointments were carried out in pink and yellow. Mrs. C. C. Myers assisted the hostesses in entertaining. The evening was arranged for the pleasure of Miss Wrinkle's sister, Miss Helen Wrinkle of Plattsburg, who came to Maryville to spend the last of the Normal term with her sister. The guests were Mrs. C. C. Myers, Miss Helen Wrinkle, Miss Daisy Allen, Miss Doris Cummings, Miss Bessie Allen, Miss Marie Murray, Misses Gladys and Katherine Thompson of St. Joseph and Miss Anna Gregory of Easton, Mo.

**Miss McCoppin Visits "Wind Cave."**

Miss Beulah McCoppin, the daughter of Mr. and Mrs. C. A. McCoppin of 422 West Thompson street, who has been visiting in the west since June 14, had an interesting experience last week when she, with a party of friends, explored "Wind Cave," one of the natural wonders near Hot Springs, S. D. In a letter to the home folks, Miss McCoppin writes: "Have just returned from a trip up Battle mountain. We started at 5 o'clock, took our breakfast, and accompanied by a guide went to the summit and returned last night. Yesterday we went through the Wind Cave. We started in at 2 o'clock p. m. and came out at 5 p. m. We walked seven and a half miles through it. The deepest we were in was 650 feet. The temperature was 47 degrees. Going to the cave, the first eight miles we drove we went up 1,000 feet. The guide and our party went in a seven-passenger Cadillac, and it was hard pulling for the machine. The cave is certainly wonderful. Before we went in the guide posted us that it was a heavy fine to be caught taking anything out of the cave, as it is government porperty. Everyone carried candles while in. The distance down in some places is 1,500 feet. Not all of it is open to the public yet, as new routes are being constantly found and they are yet unexplored."

From Hot Springs, Miss McCoppin will go to Sylvan lake for a visit. She will not return to Maryville before the middle of September.

**Celebrates Seventy-Fourth Birthday.**

James M. Johnson celebrated his seventy-fourth birthday anniversary Saturday, and in honor of the event his children and their families gathered at the Johnson home, on East First street, Sunday and spent the day with their father. At noon a splendid dinner was served and the afternoon devoted to music and visiting. The gathering was a surprise to Mr. Johnson and those of his children and their families who enjoyed the day with him were Mr. and Mrs. Walter Johnson and son, Donald, of Pickering; Mr. and Mrs. Raymond Jones, living south of the city; Mr. and Mrs. W. T. Gray, Mr. and Mrs. John Johnson and daughter, Joyce Elaine; Mrs. L. C. Severs and son, Glen Maurice, and Miss Lois Johnson. Glen Maurice Severs and Joyce Elaine Johnson are grandchildren of Mr. and Mrs. W. T. Gray and great-grandchildren of Mr. Johnson. Mr. Johnson came to Nodaway county in 1867 from Tennessee, where he was born and grew to manhood. He purchased a farm near Maryville and made that his home until a few years ago, when he moved into Maryville. Mrs. Johnson died several years ago. Beside the children present Mr. Johnson has two sons, L. L. Johnson of St. Louis and E. A. Johnson of Colorado Springs, Col., and a daughter, Mrs. J. Lewis Crum of Fayette, Mo., who were unable to be present Sunday. He also has two children deceased. They are Mrs. Samuel K. Clark and Floyd O. Johnson. The children of Mrs. Clark, Ray, Garry and Byron, are now living at Pueblo, Col. Mr. Johnson has one brother, Frank Johnson of Orrsburg, who expected to be present Sunday but was kept away by the storm. Last year Mr. Johnson, accompanied by his daughter, Lois, spent about ten months visiting at the old home place in Tennessee and with relatives through the south. He enjoys fairly good health and the friendship of a wide circle of acquaintances during his long residence in the county.

**Farewell Gathering.**

Mr. and Mrs. A. W. Hawkins and daughter, Miss Ivy Bee Hawkins, entertained a party of guests last night at the Hawkins home as a farewell pleasure for a number of visiting friends, who have been attending the State Normal school and will leave this week for their homes. The hours were spent informally, followed by the serving of a dainty repast by the hostesses. The guests were Miss Isora Mutz, Miss Amy Callahan, Miss Marie Medsker, Miss Ada Brown, Miss Doris Callahan, Miss Alice Pemberton, Miss Jeanette Mutz, Miss Miriam Bleeck, Miss Clara Meyer, Miss Lucile Monday, Miss Opal Stith, Orlo Quinn, Forrest Larmer, Ray McPherron, I. B. Williams, Flemming Carpenter, John Mutz, Robert Venable, Earl Y. Poor and O. N. Gingrich.

**C. B. Garrison Leaves.**

C. B. Harrison of Rockford, Ill., who has been visiting his sister, Mrs. V. B. Robinson, and family, left for his home yesterday.

**Market Live Stock.**

Alfred Jewett and Herndon & Bishop, Nodaway county stockmen, marketed live stock in St. Joseph yesterday.

Alderman-Yehle Dry Goods Co
WEST THIRD STREET, MARYVILLE, MO.

Advance Showing of The New Fall Suits

The first shipment of New Tailored Suits for Fall has arrived and is now on display. The new models are sure to please you.

In the first place, they have all the best style features of the season. They are so good too, in every other way—materials, tailoring and finish—that we will take real delight in showing them to you.

It is a pleasure to any woman to be the first to wear the new styles, besides you get the benefit of an entire season's wear at no more cost than if you waited until the season was partly gone.

Come today and see how becoming the new styles really are.

## CRAIG FARM MANAGER LEAVES.

**Senator and Mrs. Anderson Craig to Country Home for Summer.**

A. Morse, who has been employed at the farm of Senator Anderson Craig, with his family, left today for their former home in Kansas City, Kan. This is the second time Mr. Morse has been in the employ of Mr. Craig. He came here a few years ago and took charge of the farm, later returning to Kansas City. After a sojourn at home he again returned to the Craig farm.

Senator and Mrs. Craig will occupy the farm residence for the summer.

The total area of cigar tobacco is 172,400 acres, compared with 172,900 acres in 1914, a decrease of 500 acres, or less than 1 per cent. New England and the Miami Valley district of Ohio show a substantial increase; all other districts show a falling off. The chewing, smoking, snuff, and export types show 1,132,000 acres, as compared with 1,035,600 acres, in 1914, an increase of 96,500 acres, or 9.3 per cent.

**Guest of Miss Clark.**

Miss Sarah Cobb of Bedford, Ia., arrived in Maryville today to visit her cousin, Miss Amy Clark, at the Linville hotel.

# WARSAW READY FOR EVACUATION

## Russians Strip Polish Capital Bare Before They Go.

## EXODUS OF THE POPULATION.

**Teutons Capture Mitau, Capital of Courland, and Are Now Within Striking Distance of Riga—May Bar Road to the Sea.**

London, Aug. 3.—Warsaw is ready for the evacuation which was intimated by the Russian war minister in his address in the duma. For days there has been an exodus of the population. Factories, government institutions and hospitals have been moved and the city has been stripped of everything that might be of military value to the Teutons.

With the taking of Mitau and the favorable progress of the fighting east of Poniewesch, according to the Berlin statement, it would seem that communication by rail from Courland and Kovno eastward has been severed by the Germans.

With the ports of Memel, Libau and Windau already in their hands, should the Germans be successful in their quest of Riga they would shut Russia off entirely from the sea except by way of its northwesternmost ports.

While the situation immediately before Warsaw is reported by Berlin as unchanged, additional gains by the forces of the Teutonic allies are claimed by Berlin along the Narew in the Lomza region and on the remainder of that front to the Vistula, before Ivangorod and in numerous sectors in the southeast between the Vistula and the Bug.

**Germans Capture Mitau.**

Mitau, the capital of the Russian province of Courland, twenty-five miles southeast of Riga, has been occupied by German troops, according to the official statement issued by the German army headquarters staff.

Northwest of Lomza, capital of the province of Lomza, the statement adds, the German troops have reached the Narew river and are overcoming obstinate resistance on the part of the Russians.

Before Warsaw, the announcement says, the situation is unchanged.

## WARSAW IS EXCITED

**Rumor City Is to Be Destroyed by Russ Causes Panic.**

Warsaw, Aug. 3.—The intimation that the Vistula line was to be abandoned by the Russians and the beginning of the removal of factories, government institutions and hospitals, created intense excitement among all classes of the population of the Polish capital.

It was feared that the military authorities might deem the city a military necessity and would destroy a great part of the city to prevent its use by the Germans as a base.

Many wealthy residents left for the interior and many of those who remained sent their families out during the past fortnight.

The streets, which generally are thronged, became deserted. That period having passed with a realization that the city is to be spared those remaining have taken up their normal trend of living.

The French and Belgian consuls left the capital in the early days of German proximity, turning over their affairs to the American consul, Hernando De Soto.

**Colonel Desclaux Is Degraded.**

Paris, Aug. 3.—Colonel Francois Desclaux, ex-paymaster general of the French army, who was sentenced by a military court-martial to seven years solitary confinement after being convicted on the charge of stealing military stores, was degraded at the military school without incident.

**Rural Auto Mail Delivery Begins.**

Washington, Aug. 3.—Two hundred and eight automobile rural delivery routes, distributed over eight states, went into operation. This means that approximately 11,440 miles of rural postroads will be traversed six days a week during August by automobile.

**German Torpedo Boat Destroyer Sunk.**

London, Aug. 3.—The British admiralty announced that a British submarine had returned and reported the sinking of a German torpedo boat destroyer, believed to be of the G-196 class, near the German coast. Its complement in normal times was seventy-three officers and men.

**Mexicans Eating Grass and Leaves.**

Washington, Aug. 3.—Charles J. O'Connor, Red Cross agent in Mexico City, reported food conditions as alarming, stating that some people were eating weeds, grass, leaves and dead horses and mules.

**1915 Cotton Crop Showing Decrease**

Washington, Aug. 3.—This year's cotton crop will be approximately 11,970,037 equivalent 500 pound bales compared with 16,134,930 bales last year.

**German Empress Leaves For Berlin**

Berlin, Aug. 3.—The German empress, after traveling through East Prussia, accompanied by the crown princess, has left Koenigsburg for Berlin.

REAR ADMIRAL CAPERTON.

United States Navy Officer In Control of Situation In Haiti.

**Redfield Orders Test of Steamers.**

Chicago, Aug. 3.—Secretary of Commerce Redfield stated that an equilibrium test of all passenger carrying steamers on the Great Lakes would be made and that the work of steamboat inspectors during the last fifteen years would be investigated.

**Four Deaths From Heat in New York.**

New York, Aug. 3.—Four deaths and a number of prostrations, caused by the excessive heat and humidity, were reported from various sections of New York city.

## WHY USE LIGHTNING RODS

**Government Points Out Value of Conductors and Ways to Attach Them to Buildings.**

A large number of letters have been received by the weather bureau at Washington asking for information about the value of lightning rods for farm buildings. "Ten questions and answers about lightning rods" is herewith given by that department of the government.

Do lightning rods really protect buildings?

Answer: Yes; but the rods must be of proper character, properly installed and properly grounded in relatively moist earth. Periodical inspection and maintenance in good condition are indispensable to efficient protection.

Do lightning rods on a building increase the danger of its being struck?

Answer: Opinion is divided; but a properly rodded house may be struck several times without injury, whereas a single stroke without protection afforded by the rods may cause disaster.

Should lightning rods be put up without insulators?

Answer: Without. Buildings with metal roofs, or wherein any metal construction employed is properly connected to earth, are already partly provided with lightning protection. If rods are added to such buildings the rods should be put in direct metallic connection with the roof and other metal work about the building wherever practicable. All down spouts should be led into metal pipes going into the earth to give the proper earth connection, or the spouts should otherwise be well grounded by use of wires or cables. Insulators are entirely unnecessary, and it is proper to have extended metal work in buildings, like heating and water pipes, all electrically connected together and all well grounded. This latter result is gained incidentally through connections made to water pipes, since the latter usually pass through the earth outside the building.

Are gilded or otherwise expensive points of platinum or special metal or of fanciful construction necessary?

Answer: No; not in the least. Sharp needlelike points are effective in dissipating small sustained electrical charges, but such electrical manifestations are perfectly harmless. The imagined superiority of such fanciful points is utterly valueless when the rod is struck by a real lightning flash. The useful qualities lightning rod points must possess are infusibility, mechanical strength and security of installation, and permanence and durability under prolonged exposure to the weather. Stout bluntly pointed iron rods three-eighths or one-half inch in diameter rigidly and securely fastened so as to project 1½ or 2 feet above the structure to which they are attached satisfy all the requirements.

What material is best for conductors or rods?

This question cannot be answered fairly in a single statement.

Because of its availability and cheapness, as well as its electrical properties, iron is one of the best materials for rods. Iron, however, rusts and deteriorates under prolonged exposure to the weather. This is only partly overcome by galvanizing; hence galvanized-iron lightning rods should be of ample size (not less than one-quarter inch in diameter) carefully installed and subjected to systematic inspection and repair.

Two-strand cable galvanized-iron fence wire of substantial size of the same style as barbed wire but without the barbs furnishes a very good material for cheap iron lightning rods. The presence of the barbs constitutes a rather serious inconvenience in handling and installing such a conductor, and no material benefit is derived from their presence.

Copper is better than iron not only on account of its indestructibility but also because of the softness and pliability, which make it easy to install. Scientists are not in accord in regard to the relative merits of the electrical properties of copper and iron, but in any case questions of cost, durability, and the like far outweigh minor differences in electrical properties.

Aluminum is a competitor for iron and copper for lightning rods. Its durability under exposure to weather is in its favor, but its fusibility makes it inferior to iron for points.

If low first cost is the controlling factor, galvanized-iron rods must be chosen, but subsequent inspections must be made and repairs become necessary.

If higher first cost is not an obstacle the choice should go to copper first or possibly aluminum.

Should lightning conductors be made in the form of solid rods, flat bars or bands, stranded twisted cables, woven stranded ribbons, or hollow twisted cables?

Answer: Any of the forms may properly be employed, or two or more forms may be employed in combination. Conductors should be put up in long continuous pieces as far as possible. Solid round wires one-quarter to one-half inch in diameter are best for this purpose. Conductors of a size larger than one-fourth inch, however, present difficulties in handling and installation if the rods are solid. It then becomes better to use stranded cables and other similar forms. Long continuous lengths, ample cross section combined with flexibility, and the ease of its installation over crooked courses render stranded cables, in general, better than any other form of conductor available.

Substantial iron points in combination with copper cables from five-sixteenths inch in diameter, for small farm buildings, to one-half in diameter for large important structures, form one of the best possible systems of conductors for lightning rod construction.

There is no good reason for purchasing other fanciful forms of cable at materially greater prices per pound than are asked for standard makes of cable of approximately the same cross section.

Must lightning rods be connected to the earth?

Answer: Yes; by all means, and most effectively. Just a few operators in the lightning rod profession have sought to impose upon the uninformed a system of ungrounded lightning rods. Such rods are a menace instead of a protection. It is impracticable to fully discuss here methods of making connections to earth. In general terms the conductor should be carried down into the earth and away from the building in a trench or other excavation, so as to reach and embed the conductor itself or plates attached thereto into permanently moist earth. Connections with water pipes or other metal work itself connected to earth constitute good grounds.

Are government buildings provided with lightning rods?

Answer: Yes; many of them, but naturally not every one.

Does the government use the material or the rods or the system of any particular agency?

Answer: No; there is nothing mysterious or exceptional about lightning rods, the material of which they are composed, or their construction and installation. Suspicion may well be aroused as to the reliability of those making extravagant claims of superiority for their particular wares to the exclusion of others.

What is the best arrangement of rods on a building?

Answer: A building completely screened and surrounded by and inclosed beneath a cage or network of substantial metallic conductors, all properly interconnected and joined to the earth, would be most effectively protected from lightning discharges. For ordinary purposes a far simpler system is adequate. For example, good protection is afforded by a conductor running along the ridge of a building and extending to the earth, either at the middle of the sides or, preferably, at each of the four corners. Points should rise above any prominent features of the building, such as chimneys or, in the absence of these features, from the ridge of the roof at intervals of 25 feet or thereabouts.

## MRS. TRULLINGER IS WELL AND HAPPY

Mrs. J. B. Trullinger of Norborne, Mo., was ill for months with derangements of the digestive tract. She suffered terrible pain and was seldom able to be about.

She took Mayr's Wonderful Remedy with results that most happily surprised her and astonished her physician.

Mrs. Trullinger lives on rural route 1, out of Norborne, and leads an active country life. She writes:

"I take great pleasure in telling you what Mayr's Wonderful Remedy has done for me. When I wrote you last March I was hardly able to be up at all. I endured awful suffering. I would get so bad I would become unconscious, and the nauseating spells I had would leave me as weak as if I had a long spell of sickness nearly as bad as typhoid.

"Words cannot express the appreciation I have for your medicine. I am now able to work all day long. All this summer and fall I have felt just fine, gaining in strength and flesh."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

**Guests at Tobin Farm.**

John McShane and Charles Geary of Kansas City, who have been visiting at the home of Mr. McShane's grandmother, Mrs. J. Vaughn, went to Burlington Junction yesterday, where they will spend a few days at the Tobin farm, the guests of Mr. McShane's uncle, Thomas Tobin, and family.

## CLASSIFIED ADVERTISING WANTS THAT BRING RESULTS

**RATES IN THIS COLUMN**

Classified ads running three days or more will be inserted in this column for one-half cent per word each insertion. No ads taken for less than 25c for three days.

Ads running less than three days or interrupted insertions 1 cent per word each insertion.

Count the words; send money with the order. Ads should be in by twelve o'clock to insure insertion in this column same day.

**Miscellaneous.**

QUICK and efficient service is required for first class work. Our service gives this to you. Standard Plumbing Co.

**REAL ESTATE TRANSFERS.**

The following warranty deeds were filed in the office of recorder of deeds for the week ending July 31.

James H. Killion to Edith Wilson, July 24, 1915, lots 5 and 6, block 14, Torrances addition Maryville. $2,000.

Wm. A. Morehouse to Joseph S. Brunk, July 2, 1915, lots 5, 6, 7, and 8, block 13, Charles addition, Maryville. $1,600.

Fred P. Robinson to Chas. T. Bell, July 12, 1915, lot 4, block 2, West Terrace Place, addition to Maryville. $1.

Geo. S. Baker to Nathaniel Sisson and wife, March 12, 1891, SE SW & SW SW 18-64-35. $2,000.

**Called by Mother's Illness.**

Mrs. Nancy J. Foster is very ill at the Foster home, 317 East Fourth street. She has been in failing health for some time, and her condition is now serious. Her son, Harry Foster of Des Moines, Ia., arrived in the city Sunday, called by his mother's illness. His wife, who has been visiting in Chicago, arrived yesterday.

VOLUME 6. MARYVILLE, MISSOURI. TUESDAY, AUGUST 3, 1915. NO. 52.

## NORMAL IS NEAR END; FACULTY OFF

WAS MOST SUCCESSFUL AND BEST ATTENDED QUARTER.

## MANY TEACHERS PLAN TO TAKE EXTRA STUDY

Tutors Will Leave Soon for Schools, to Homes or On Visits—Regular Term Opens September 8.

The most successful and best attended summer quarter in the history of the Maryville State Normal school will end tomorrow, after an almost continuous session since May 26. The school in this quarter reached a record attendance of 539 pupils, compared to a total of 520 last year.

With the close of the summer quarter tomorrow will also see the rapid egress of both students and faculty members, until the fall quarter of the regular 1915-1916 term begins, September 8.

But many of the most industrious and studious students and faculty members will not be content to spend the month intervening until school begins again, in resting by the seaside, in the mountains, visiting or at home. Many will hie to Chicago university to take up a six weeks' course in special work for teachers.

**How They Will Spend Vacation.**

This is how some of the faculty members will spend their vacations:

President Ira Richardson intends to go with Mrs. Richardson to some place that she may receive special medical treatment, probably to Chicago.

Dean G. H. Colbert, accompanied by the entire family, intends to leave for Chicago August 15, where the family will spend the vacation period.

Prof. H. P. Swinehart and family left Saturday for Chicago, where Prof. Swinehart intends to take up special work in the University of Chicago.

C. E. Wells, librarian, accompanied by his siters, Miss Mabel Wells, teacher in the high school here, and Miss Edith Wells of Lovelock, Nev., will leave Saturday for San Francisco to attend the exposition.

Prof. A. J. Cauffield will leave soon for California, where he will join a geological research expedition, which will make investigations through that part of the country.

Prof. M. W. Wilson will go to Detroit, Mich., and to his home in Michigan to spend the vacation.

**He Leaves the Normal.**

M. W. Maxwell, secretary to President Richardson, will leave this week for Warrensburg, his home. He will not return for the next Normal term.

Miss Celia Hutt has already departed for her home at Skidmore. She will not return next term.

Prof. F. P. Wagg will go to his home in Maine for the vacation period.

Prof. J. E. Cameron will probably go to Duluth, Minn., soon, where he will spend some time on his farm nearby.

Prof. H. A. Foster intends to go to Tennessee to visit his parents during August.

Prof. H. A. Miller intends to spend the vacation period in study at Chicago university.

Prof. S. E. Davis, new tutor in the Normal, accompanied by Mrs. Davis and daughter, intends to go to Chicago within a few days, where he will take the six weeks' course in the Chicago university.

**Take Pacific Coast Tour.**

Miss Mary M. Hughes and Miss Beatrix Winn will go to the Pacific coast for a visit. Later Miss Hughes will go to her home in Colorado. Miss Winn will spend a few days at her home in St. Joseph before going west. She will later visit at the summer cottage in Manitou, Col.

Miss Mildred Miller and Miss Beulah Brunner will take the six weeks' course in the Chicago university this month and the first part of September.

Prof. R. A. Kinnaird will go to his home in Carrollton for a short vacation. He will return here the latter part of August to aid in the agricultural displays at the county fair.

E. A. Singleton will go to his home in Shelbina.

Miss Bertha Daniels will go to her home in Springfield.

Miss Dorothy Kaucher will spend the vacation at her home in St. Joseph.

Prof. Walter Hanson will probably leave within a few days for Grand Rapids, Mich., for a visit.

George Palfreyman intends to spend the month at his home in St. Joseph.

Miss Fannie Hope, who has been attending Chicago University in Chicago, returned to Maryville Saturday.

### NAB MAN GONE ONE YEAR

Taylor Gilbert Fined $2 by City Today for Giving Liquor to Dave Farris

Taylor Gilbert, charged by the city in July, 1914, with three others with having given or sold liquor to David Farris, a confirmed drunkard, was arrested yesterday by Chief Moberly and fined $2 and costs in police court this morning, when he pleaded guilty to the charge. He has been out of Maryville since the charge was placed against him.

David Scull, one of those arrested on the same charge a year ago, was fined $25, while the charge against Chester Gilbert was dismissed for lack of evidence.

## U. S. SEEKS AID

ASKS SOUTH AND CENTRAL AMERICA TO HELP PACIFY MEXICO

## WILL CONFER THURSDAY

Envoys From Six Countries of Hemisphere to See Lansing on Move—Carranza Claims Domination.

Washington, Aug. 3.—The United States has decided to ask the co-operation of South and Central America in the next step to restore peace in Mexico. The ambassadors from Argentina, Brazil and Chile and the ministers from Bolivia, Uruguay and Guatemala have been asked to confer with Secretary Lansing here Thursday.

With official confirmation of the reoccupation of Mexico City, General Carranza cabled his Washington agency a detailed review of the military situation in Mexico to show the extent of the territory under domination of his forces.

General Obregon, he says, is in possession of Zacatecas and Aguas Calientes and is repairing the railway line to reopen communication with Tampico.

General Gonzales, now having occupied Mexico City, is to immediately repair the railroad to Queretaro and continue pushing north.

General Iturbide, now being in complete control of the state of Sinaloa, General Carranza says, will immediately start into Sonora, hitherto one of the Villa strongholds. Tamaulipas, Neuvo Leon and the greater portion of Coahuila are now in control of General Trevino's troops.

From this General Carranza cabled: "You will see the Constitutionalist government control the greater part of the country. It only expects not to be interrupted, so that it may accomplish a definite work of peace and reconstruction of the republic."

**CALL OFF BASE BALL GAME.**

Boosters Will Not Play All-Stars of St. Joseph Today.

On account of rain the game to have been played at the Normal grounds this afternoon between the Maryville Boosters and the St. Joseph All-Stars has been postponed. A game is to be played here between the Boosters and Guilford Thursday, if the weather and grounds are in condition.

**SUES ON $150 ACCOUNT.**

A. H. Garrett, Clearmont, Says Edward E. Moore Owes On Lumber Bill.

A. H. Garrett, lumber dealer of Clearmont, filed suit in circuit court today against Edward E. Moore, also of Clearmont, for $150.44, said to be due on an account for furnishing material for a house built by Moore last fall.

**Miss Burris Home.**

Miss Helen Burris has returned from a visit with her cousin, Mrs. H. B. Clarkson, of Macon, Mo.

## TO VOTE ON BONDS

NODAWAY TOWNSHIP PETITIONS FOR ELECTION ON $35,000 ISSUE.

## WOULD IMPROVE ROADS

County Court Will Call Special Vote for Week of August 22—Fifty-Six Voice Approval.

A special election to vote on a proposition to issue $35,000 in special road ship will be called for probably August ship will be called for probably August 25 or 26 by the county court, as a result of the presentation of two petitions for such an election today. One petition contained the names of forty-four voters of that township, while the other contained the names of twelve. Only twenty names were necessary.

It is proposed to issue the $35,000 in bonds, which will draw not more than 6 per cent interest and that all shall be paid in fifteen annual installments, the first to be made two years hence. This is the same as governed the issuance of bonds of this nature in Polk, Union, Lincoln and Hughes townships.

The need of road and culvert improvements is apparent throughout that township, residents there say. The recent floods also caused many more bridges and culverts to be damaged or washed out, so that many roads are impassable or in bad condition for traffic.

**May Vote in Monroe, Too.**

The county court will probably not formally call the election before tomorrow, but W. M. Blackford, presiding judge of the county court, said this morning such an election would be called for some time during the week beginning August 22, probably August 25 or 26.

A petition asking the county court to call a special election to vote on a proposition to issue $25,000 in special road improvement bonds in Monroe township also is now being submitted to voters of that township. It will be presented to the county court probably this week.

**MUST PETITION FOR CHANGE.**

Hughes Township Improvers Will Seek Sentiment of Property Owners.

The leaders for the improvement must circulate a petition before the various property owners of that vicinity before the county court will order the condemnation of the proposed 66-foot land strip for improving the public road between Graham and Maitland. That was the answer made by the court members to the delegation which waited on the court yesterday afternoon relative to the proposition.

If the property owners and residents in that vicinity appear to desire the change, the county court will then act.

**STORM PREVENTS COUNTY GAMES**

Base Ball Schedule for Yesterday Deferred by Weather.

The game between the Skidmore and Clearmont teams, scheduled for Sunday afternoon at Clearmont, was called off on account of the storm. Next Sunday afternoon Clearmont will play the Shenandoah, Ia., team if the weather will permit. The game will be on the Clearmont grounds.

On account of the storm the game between the Burlington Junction and Clarinda, Ia., teams at Bever park, Sunday afternoon was called off at the end of the second inning. The score at that time was 3 to 1 for the Clarinda team.

The game planned between the Bolckow and Graham teams at Graham Sunday afternoon was deferred because of the weather..

**GRAHAM CHAUTAUQUA TO END.**

Last of the Week's Entertainment to Be Given Tonight.

The Graham Chautauqua, which opened Thursday, has been well attended and the programs have been unusually interesting. Sunday brought out a larger crowd than the previous days. The lectures, both afternoon and evening, were given by Dr. Bruce Brown of Los Angeles, Cal. The Hon. Caleb Powers of Kentucky lectured yesterday before the largest audience of the week.

The program will close tonight with a porgram by the Fulton Marine band and orchestra. The event was under the direction of the Jones Chautauqua system.

Florian Gex arrived Sunday from Texas to spend a while visiting his parents, Mr. and Mrs. R. B. Gex, living southwest of the city.

## KICK AGAINST ROAD CHANGE

Twelve Residents Ask County to Leave Road Between Green and Polk Township.

A petition containing the names of twelve residents of that neighborhood was presented to the county court today asking the county court to reconsider action of a month ago, and not change the public road between Polk and Green township, as proposed.

The former petition sought to have the road, which now winds around eighty acres of the John Miller farm, abandoned and open another directly through the Miller farm, cutting off the eighty acres.

The opponents claim that such a proposition would necessitate much expense in bridge building, that the route is through rough land and that it would work a hardship on several property owners there.

The petition was signed by Frank N. Miller, Joseph Miller, John Murphy, James Murphy, J. N. Wiseman, A. E. Cockayne, E. P. Knabb, M. P. Gingrich, Byron Croy, R. T. Hughbanks, S. H. Shell and C. J. Duncan.

**MRS. B. H. COOPER DEAD.**

Has Stroke of Paralysis After Hearing of Drowning of Mrs. Frank Barton.

Mrs. B. H. Cooper, 54 years old, died at 5 o'clock yesterday afternoon at the Cooper home, near Gaynor City. Mrs. Cooper's death was caused by hemorrhage of the brain, which resulted from a stroke of paralysis. This sudden attack was believed to be pre-induced by the shock to Mrs. Cooper of learning of the sudden death by drowning of Mrs. Frank Barton and small son Saturday afternoon. The Barton and Cooper families were close neighbors and Mrs. Cooper was deeply grieved over the death of her friend.

While on a visit to relatives in Illinois last October, Mrs. Cooper suffered a stroke of paralysis. She rallied from this and it was thought she would entirely recover, but her condition at times was serious.

Mrs. Cooper's maiden name was Ida Higgins, and she was born February 5, 1859, in Ohio. She was married to Mr. Cooper September 11, 1879. After moving from Illinois the Coopers settled for a time in Taylor county, Iowa, and came to Nodaway about thirty years ago and made their home here since. Mrs. Cooper is survived by her husband and nine children. The children are Prof. Bert Cooper of this city, county superintendent of schools; Claude Cooper of Gaynor, Guy Cooper, Fred Cooper and Mrs. Gordon Miller of Sheridan, Rolla, Frank, Myrtle and Hazel Cooper, living at home.

No arrangements have yet been made for the funeral, but it probably will be held tomorrow afternoon at the home. Sunday, July 25, the Cooper family held a reunion at the home place, and at that time Mrs. Cooper was feeling unusually well and enjoyed the day to its fullest in the society of her children. Prof. Cooper of this city went to his home yesterday. Miss Irilla Meeker and Miss Irene Rutledge of Grant City, relatives of the family also went to Gaynor yesterday, called by Mrs. Cooper's illness.

**MRS. NANCY J. FOSTER, 80, DEAD.**

Funeral Services Will Be Held Thursday Afternoon at Residence.

Mrs. Nancy J. Foster, 80 years old, the widow of John W. Foster, died at 1:30 o'clock this morning at the family home, 319 East Fourth street.

Mrs. Foster had been in failing health for more than a year past. She was born in Richmond, Ross county, O., October 6, 1834. On March 28, 1854, she was married to John W. Foster, who died several years ago. She is survived by six children. They are Misses Mary, Jennie, Effie and Ella Foster, and William Foster of this city and Harry Foster of Des Moines, Ia. Harry Foster and his wife arrived in the city Sunday, called by his mother's illness.

The funeral services will be held at the home at 3 o'clock Thursday afternoon, conducted by the Rev. John H. Hubbard, pastor of the Buchanan Street Methodist church. The burial will be in Miriam cemetery.

**Visit at Osborn Farm.**

Misses Ola and Ora King spent Sunday visiting their uncle, William Osborn and family, at the Osborn farm, six miles northwest of the city.

**To Visit Miss Adcock.**

Mrs. W. H. Tucker of Ravenwood came to Maryville Sunday to visit Miss Golda Adcock. Miss Adcock has been very ill for several days.

Mr. and Mrs. J. F. Gray left this morning for Starkweather, N. D., to visit their daughter, Mrs. C. A. Ellis.

## NEGROES TO MEET

AFRO-AMERICAN CLUB PLANS EMANCIPATION CELEBRATION.

## TO START WITH PARADE

Procession, Headed by 26-Piece Band, in Morning Precedes Speaking, Songs, Dance and Athletics.

Rain and cold August weather is not to dampen the ardor and spirits of the Afro-American club, which will give an emancipation celebration in the Franklin school grounds tomorrow, according to announcement made today. Others may await the sunshine and warmth, but not this aggregation of the young negroes of Maryville—unless it should happen to be raining pitchforks tomorrow.

Besides the entertainments already announced for tomorrow, Aaron Williams, secretary, announced today that a parade through the business streets will be held at 11 o'clock tomorrow morning, to better advertise the event. The parade will be headed by the twenty-six piece First Regiment band of the Knights of Pythias of Omaha.

The real entertainments will not begin until 1:30 o'clock tomorrow afternoon, however. The day's program provides for a number of addresses, instrumental and vocal numbers, athletic contests, concert at night and a dance in the old armory hall as a finale.

## RIVER IS AT A STANDSTILL

102 Falls But Rises Again—Intermittent Rains Keep Streams Over County Overflowed.

The 102 river and other streams over Nodaway county keep about bank full or overflowed yet, on account of the intermittent rains that continue to fall throughout the streams' drainage sheds. The 102 river here this afternoon was rising slowly as a result of the rains Sunday and yesterday, but fell last night.

The river overflow is still running over the state road several places, but some traffic still goes over that highway

No big rise is on the way here, according to reports from points up stream, though the river here is expected to rise slightly all day.

## TEMPERATURE DOWN TO 53

Weather Damp and Cloudy But Not as Cold as Many Former August Days.

The temperature fell to 53 degrees above zero early this morning, according to J. R. Brink, it being the lowest temperature this season or for two months. The maximum temperature for the 24 hours preceding 7 o'clock this morning was 79 degrees. The rainfall yesterday and last night was .47 of an inch.

That there have been many other colder August days than the one today is verified by the records maintained by Mr. Brink. The fact that it is damp and cloudy, and a raw wind accompanies the chill, makes it appear much cooler, however. Some colder August days since 1894 are cited as follows

| | |
|---|---|
| August 3, 1894 | 53 |
| August 1, 1895 | 52 |
| August 27, 1896 | 48 |
| August 20, 1897 | 46 |
| August 1, 1898 | 50 |
| August 31, 1900 | 51 |
| August 3, 1904 | 58 |
| August 27, 1906 | 45 |
| August 20, 1908 | 52 |
| August 26, 1910 | 45 |
| August 29, 1911 | 49 |
| August 4, 1912 | 51 |

**DROP CHARGE AGAINST COFFIN.**

State Allegation of Disturbance Dismissed—Paroled by City—Pays Costs.

The state charge of disturbance held against Frank Coffin was dismissed late yesterday afternoon on payment of costs of about $25 by Coffins brother.

Coffin was also paroled by the city on payment of costs. Coffin was being held in the city jail on three sentences, they being for drunkenness, resisting an officer and assault.

The Coffin family left last night for near Leon, Ia., where they will take up residence on a farm.

**Returns from Vacation.**

Miss Bertha Schmauder, who is employed in the Haines store, has returned to her work after a two weeks' vacation spent with her mother, Mrs. A. M. Schmauder of Burlington Junction.

## FEW FOR COUNTY BOND ISSUE

Two Petitions From Burlington Junction Seeking $300,000 Fund Contain But 11 Names.

That the sentiment over the county appears to be against the proposition to call a special election to vote on a proposition to issue $300,000 in special bonds for good roads is further indicated in two petitions presented to the county court today from Nodaway township.

One contains but seven names of voters in that vicinity while the other contains only four names.

A petition presented from that township yesterday contained twenty-three names.

**CONTRACTS FUTURE FILMS.**

Fern Will Portray "Spartacus," 8-Reel Spectacular Photoplay, Tonight.

A number of feature films have been contracted for by James Ells, proprietor of the Fern, the first of which will appear there tonight. It is "Sparticus," an eight-reel spectacular photoplay which has to do with the warring times of years ago.

Another big feature will be portrayed tomorrow night in "The Isle of Regeneration," by Cyrus Townsend Brady.

## CHANGE IN SITES

CHAUTAUQUA WILL BE HELD ON CENTRAL SCHOOL GROUNDS.

## IS EASILY ACCESSABLE

New Location Insures Better Seating Arrangement, Close in and Dryer Than Normal Park.

The Maryville Chautauqua, August 6 to 12 inclusive, will be held near the northwest corner of the Central school grounds, Second and Market streets, instead of in the Normal park, according to a decision of those in charge this afternoon, in a special conference with the Maryville school board. The change was made on account of the extremely wet ground at the Normal park and inability to haul Chautauqua tents and equipment to the Normal grounds on account of the condition of the streets.

By holding the Chautauqua at the Central school grounds, well drained seating room is assured, it will be of easy access to the entire town, and on paved streets. The lay of the ground there also will furnish a natural amphitheater arrangement, each row of seats being slightly higher up than the one in front.

H. W. Lark, property man for the Redpath-Vawter Chautauqua system, which furnishes the Chautauqua here this season, arrived today and will begin arranging for the erection of the large tent tomorrow morning.

**Albert Bremitt, 63, Dead.**

Albert Bremitt, 63 years old, died last night at his home, at Fourth and Walnut streets. Mr. Bremitt had been sick for some time suffering from a paralytic stroke received several months ago.

No arrangements have yet been made for the funeral.

Mrs. John Porter, who has been ill the last ten days, had an operation performed Sunday at St. Francis hospital.

## BRYAN SPEAKS AT CHAUTAUQUA HERE

NOTED ORATOR, STATESMAN, DEMOCRAT, APPEARS AUGUST 12.

## WILL ADD TO FINAL NUMBER ON PROGRAM

"Grape Juice" Exponent May Be Heard On Season Ticket—Does Not Replace Other Features.

William Jennings Bryan, thrice candidate for president on the Democratic ticket, former secretary of state, and considered the best orator in America today, will speak at the Maryville Chautauqua at 7:30 o'clock, Thursday night, August 12. This announcement came today from H. C. Orchard, assistant manager of the Redpath-Vawter Chautauqua system of Cedar Rapids, Ia., which furnishes the Chautauqua here this season.

That Bryan continues to be the best drawing card on any platform is evidenced by the large crowds that assemble wherever he has spoken since resigning as a member of President Wilson's portfolio. He is considered, without a doubt, the best number on any program, and will be the best here, despite the fact that the entire seven days is to be jammed full of the best of numbers in oratory, music and entertainment of various kinds.

**Will Not Replace Any Number.**

Bryan was with the Redpath-Vawter system when such a howl was made last year over the fact that he continued on the Chautauqua platform although secretary of state. Bryan has just contracted with the Redpath-Vawter system for the season and will appear at only several Chautauquas before appearing on the platform here.

Bryan will not replace any other number on the Chautauqua program. Instead he will merely fill the program all the fuller. The costumed exhibition of children of the different countries visited by the Junior Chautauqua bunch will merely be shortened and precede the address by Bryan. The concert the closing night by Sam Schildkret's Hungarian orchestra also will be shortened, that the address by Bryan might fit in.

The season tickets to the many other Chautauqua numbers will also admit holders to the address by Bryan, which number alone will cost at least 50 cents to those not holding season tickets. The announcement of Bryan's appearance here will no doubt draw a large crowd from all parts of Nodaway county and northwest Missouri.

**SAYS HIS WIFE ABUSED HIM.**

James L. Mozingo Alleges Mate Used Profane Language—Seeks Divorce.

A suit for divorce on the grounds of indignities and abuse was filed in circuit court today by James L. Mozingo of Maryville against Grace May Mozingo. They were married here May 19, 1911, and separated June 1 this year.

### THE PROPOSED BOND ISSUE.

The Democrat-Forum has taken no part so far in the discussion of the proposition to issue bonds for the repair of the county bridges. This is a matter in which the taxpayers of the county are interested above all, and whatever is done must be in accordance with their wishes. The situation is an unfortunate one and one for which no one is to blame. The unprecedented rains this summer have destroyed the bridges and approaches and wrought untold havoc with our roads. It has found the county without a surplus, and the necessity for some sort of action is apparent to all. The same rains, however, that have done this damage have also done irreparable damage to the crops and the prospects of people in every line of business.

So it may be expected that the people will not be in a mood to do more than is absolutely necessary under the circumstances. The Democrat-Forum does not believe that a proposition to issue bonds to the amount of three hundred thousand dollars would carry. It certainly would not unless it could be shown to the satisfaction of the voters that it was necessary to do the work. An issue for half the amount would probably carry. The Democrat-Forum believes that the people will do cheerfully what is shown to be necessary and best.

Whatever is finally agreed upon, however, must be presented and urged in a business-like way. An accurate estimate showing just how many and what bridges are out and what is the necessary cost of repairing them should be made up by those who know and whose recommendations will carry weight. The voters can then tell to a certainty just where the money is going and how much it is going to take. Farmers and business men are all interested equally. Roads must be had, and all fair-minded citizens will see the necessity of doing something to remedy the situation.

### VALUE OF RESERVE BANKS.

From the St. Louis Republic.

The chronic kicker wants to know what use the Federal Reserve Banks are, in view of the fact that the national banks of the United States are now carrying about $800,000,000 of excess reserves and the state banks and trust companies about $500,000,000 more. We make haste to answer: the Federal Reserve banks are of no more use just now than the newly canned fruit is to the housewife in these days of fresh melons, peaches, pears and apples. The canned fruit is simply dead weight on the shelves representing money tied up that profits nobody; it will continue so to be until the time of bleak days and frosty nights, when gardens and orchards take a long vacation. Then the canned fruit will be the housewife's chief resource. And so, when the present wholly unnatural conjunction of a war scare with a tremendous inflow of money from food exports comes to an end, when once more the demand of American business crowds the available credit resources of the nation, the Federal Reserve bank will be worth 10 times what it has cost to carry it through the present period of congested cash, for the banker will rest secure on the solid fact that good commercial paper, thanks to the Federal Reserve bank, will be cash in the day of his need.

Sold by all Druggists, 75c.
Take Hall's Family Pills for constipation.

**BOOSTERS!**

***Don't Forget This is BOOSTER WEEK at***

***Berney Harris'***

We think it fitting at this time to announce that we have decided to award a second, third, fourth and fifth premium to the members of the Booster Club. Many of you Boosters are doing good work for us and we wish to show our appreciation of your efforts by making it possible for several of you to obtain a piano for yourself by the payment of a very small amount of cash. At considerable expense we have arranged for four pianos which we shall give to you as specified below, if you want them. These pianos are listed at $300.00. This is the way they will be given:

Second prize—A certificate for $190.00, to apply on the purchase of one of these $300.00 Pianos.
Third Prize—A certificate for $180.00, to apply on the purchase of one of these $300.00 Pianos.
Fourth Prize—A certificate for $170.000, to apply on the purchase of one of these $300.00 Pianos.
Fifth Prize—A certificate for $160.000, to apply on the purchase of one of these $300.000 Pianos.

These certificates are valuable, as the cash that you must pay is less than the regular wholesale price of pianos no better than this one, and in case the person securing one of them does not care to use it, it may be transferred and sold to some one who desires to buy a piano.

What Booster will win the watch Monday, August 16th?
Our windows will be trimmed this week by Booster Miss Brownie Helpley.
Music next Saturday by Booster Miss Mildred Palmer.
Booster Lila Nabler and her Patron Club won the table silverware last week. Booster Bertha Lattin and her Club won second place. They'll have a full set pretty soon.
Be sure to make big purchases this week, and get some of the thousands of extra Booster Coupons being distributed. Help your Booster, and HELP YOURSELF.
The Post Card feature ends on Saturday night of this week. Have you brought your cards in yet?
Our Patron Club Specials this Wednesday are Hats, Caps, Trunks, Suit Cases.
DON'T FORGET THIS IS BARGAIN WEEK AT BERNEY HARRIS'.

## CHERRY CROP HEAVY BUT SHORT.

**Harvest for 1915 Good But Lasted But Little While in Missouri.**

The cherry crop this year was an anomaly. It was one of the largest in years and at the same time one of the shortest. More cherries were harvested in Missouri than there were in 1914 or 1913, yet the season was more than 30 days shorter.

Two years ago cherry picking was under way May 20 and virtually ended July 20. Last year picking began May 20 and the last of the crop was not harvested until August 5.

This year there were very few home-grown berries picked before June 1, and a month later there were few growers who had any left, although the yield was extraordinarily large.

The explanation lies in the weather conditions. Early cherries were late in forming because of the abnormally dry April. The late varieties were forced by the phenomenally wet June. The result has been that housewives who depended on the late cherry for her preserves will get none of the home-grown article.

Cherry prices were about normal during the season. The first crop brought fairly good prices for a few days, then the market slumped. The middle crop ran a little higher, then the last crop—black cherries, which usually hang on until August took an upward turn because they had ripened so early that they were sent in with the paler varieties, and the supply at the close of the season was limited.

Misses Grace and Mary and Edward Perritor spent Sunday at Clyde visiting their uncles, T. F. Merrigan and Gus Enis, and families.

BE SURE ABOUT YOUR EYES

Have them tested (FREE) by our expert Optician, If glasses are needed a proper fitting is Guaranteed.

H. T. CRANE
JEWELER AND OPTICIAN

Guess Work Is DANGEROUS In Fitting Glasses

The old way of fitting glasses by guessing at the kind needed was often more harmful than going without them. NO GUESS WORK NOW. I submit the test, the correction, and the cost to you before you are asked to pay a single cent. You take no risk nor incur any obligation by coming to me about your eyes.

H. L. Raines
JEWELER OPTICIAN
110 W. 3RD ST. JUST A STEP PAST MAIN
MARYVILLE, MO.

## WHAT WOULD MARYVILLE HAVE?

**Statistics at Shenandoah Show Rainfall Was 583,817 Gallons May 1 to July 15.**

Five hundred and eighty three thousand eight hundred and seventeen gallons of water to every acre—this is the amount of rain that has fallen between May 1 and July 15 at Shenandoah, according to the figures worked out by Senator H. I. Foskett, there. The total rainfall has been twenty-one and one-half inches since May 1.

At fifty tons to the car load, it would take a train of about fifty cars to carry all this water. The number of cubic inches of rain was 134,861,760 per acre. In barrels it amounts to 18,533 and stated in pounds is 4,865,141.

Two thousand four hundred and thirty-two tons seem like a great quantity of water but this much fell during that time on each acre of ground, quite enough to grow a crop and with some left over to supply the towns.

## GERMAN-AMERICANS MEET

**Hexamer Hopes For Victory For Kaiser on Seas, Land and Air.**

San Francisco, Aug. 3.—Hope of victory for German and Austrian arms "on the seas, on land and in the air" was voiced here at the eighth biennial convention of the National German-American alliance by Dr. C. J. Hexamer of Philadelphia, president of the organization.

About 600 delegates registered, representing more than 2,000,000 members in the United States and territories.

Dr. Hexamer's reference to the European war was made in the course of his address.

"Germany is fighting today for the principle which will bring world peace nearer to us than all the efforts of pacifists and dreamers," Dr. Hexamer said. "Germany is fighting for the principle of the open door on the oceans as well as on land. If this principle were to receive general recognition many of the causes for future wars would be eliminated.

"Therefore, hail and victory to German and Austrian arms on the seas, on land and in the air."

**Quicksand Swallows Power Plant.**

Hudson, N. Y., Aug. 3.—Four men were killed and four others injured one of whom will die, when the power plant of the Knickerbocker Cement company submerged in quicksand here. The entire building disappeared. All of the dead men were laborers.

**Deficit For July Is $16,000,000.**

Washington, Aug. 3.—Treasury receipts for July, the first month of the new fiscal year, ran $16,000,000 behind expenditures. A working balance of approximately $100,000,000 is still available from all sources.

## GRAIN AND PROVISIONS

MRS. CHARLES BECKER.

Executed Ex-Policeman's Widow Dressed In Her Mourning Garb.

Photo by American Press Association.

## WANTS BIG FLAGS PAINTED ON U. S. SHIPS

### Kaiser Seeks to Avoid Attacking American Craft.

Washington, Aug. 3.—Germany's first response to the last American note on submarine warfare has come from the admiralty, which has requested that American ships have American flags painted on their sides in proportions large enough to be recognized at a distance by submarine commanders. Many American ships are painting the national colors on their sides now, but it is said they are painted too small.

Ambassador Gerard transmitted the request in a message.

The dispatch brought out no comment in official quarters, but it was plain that evidence of a desire by Germany to avoid attacks on American ships was gratifying.

## FUNERAL OF CHARLES BECKER

**Big Crowd Attends Services In New York Church.**

New York, Aug. 3.—The funeral of Charles Becker, executed in Sing Sing prison Friday for instigating the murder of Herman Rosenthal, was held from the Church of St. Nicholas of Tolentine, the Bronx.

So great was the crowd around the church and the Becker home, nearby, that the police reserves had to be called to handle it. Carriages to take part in the funeral procession extended several blocks from the church. One carriage was filled with floral tributes.

Before the body was taken to the church friends of the former police lieutenant gathered at the house to view the body. Police reserves formed them into a line that stretched for half a mile. Those who saw the casket noticed that it bore the new plate, reading "Charles Becker, Died July 30, 1915." A plate removed by the police bore the allegation that Becker was "Murdered by Governor Whitman."

## COREY BACK FROM FRANCE

**Says Allies Preparing to Continue War Three Years More.**

New York, Aug. 3.—The allies are preparing to continue the war for at least three years more, if necessary, according to William Ellis Corey, former president of the United States Steel corporation, who arrived on the French liner Espagne from Bordeaux.

Mr. Corey said it was problematical as to whether the allies would like to see the United States enter the war, but he thought they would rather have the financial than the military aid of this country.

**Freighter Georgian Is on Duxbury Reef**

San Francisco, Aug. 3.—Life saving crews and tugs went to the assistance of the American-Hawaiian steamship Georgian, on Duxbury reef, a few miles north of the Golden Gate, where the freighter went ashore in a dense fog. Captain Nichols and a crew of more than thirty men are aboard the stranded vessel.

## KILLS THREE AFTER QUARREL ABOUT GIRL

Chicago, Aug. 3.—George H. Jones, forty-eight years old, a garage owner, entered the home of his brother-in-law and shot to death his wife, her sister and her brother and tried to slay his own son. He then entered his automobile, which he had left standing outside, drove home a young woman companion, over whom he had trouble with his wife, and tried to commit suicide.

## SOCIETY and CLUBLAND

By KATE SCHENCK
PHONES—OFFICE 42. HOME 683

**Aid Society to Meet.**

The Ladies' Aid society of the Buchanan Street Methodist church will hold its regular business meeting at 2:30 o'clock tomorrow afternoon at the church. All members are requested to be present as there is important business to come before the meeting.

**Epworth League Entertains.**

The Epworth League of the First Methodist church gave a Japanese social last night at the home of Mr. and Mrs. George Hulet, with Misses Dale and Wave Hulet as hostesses. The rooms were attractive with Japanese decorations and lighted with Jap lanterns. The hours were spent informally and a dainty supper served.

**Mowry-Goodpasture.**

Miss Dale Mowry and Clyde Goodpasture of Graham were married yesterday afternoon in the office of Probate Judge W. A. Conn, who performed the ceremony. The marriage was witnessed by John Gex and Miss Mollie Hall. Mr. Goodpasture and his bride will be at home at the Goodpasture farm, near Graham.

**Mrs. Collins Hostess.**

Mrs. Roy Collins was the hostess of a dinner party given last night at the Linville hotel, complimentary to Mrs. George Tunstall of Kansas City, who is visiting in the city. The guests, who were further entertained with a party at the Empire theater to see Walker Whiteside in "The Melting Pot" were Mrs. Tunstall, Mrs. Conrad Yehle, Miss Lenore Schumacher and Miss Rose Schumacher.

**To Attend Pre-Nuptial Affairs.**

Mrs. J. T. Linville and daughter, Elfreida, will go to St. Joseph tomorrow, where they will be the guests of Mrs. Linville's daughter, Mrs. Earl E. Fisher. They are going to attend a number of pre-nuptial affairs which are to be given by Mrs. Fisher and others, complimentary to Miss Martha Fisher of St. Joseph, whose marriage to Mr. T. A. Becker of Washington, takes place this month.

**Theater Party and Supper.**

Miss Mary Wrinkle and Miss Myrtle Lanning entertained a number of their friends Saturday night with a party at the Fern theatehr, followed by a luncheon at the New York Candy Kitchen. The menu appointments were carried out in pink and yellow. Mrs. C. C. Myers assisted the hostesses in entertaining. The evening was arranged for the pleasure of Miss Wrinkle's sister, Miss Helen Wrinkle of Plattsburg, who came to Maryville to spend the last of the Normal term with her sister. The guests were Mrs. C. C. Myers, Miss Helen Wrinkle, Miss Daisy Allen, Miss Doris Cummings, Miss Bessie Allen, Miss Marie Murray, Misses Gladys and Katherine Thompson of St. Joseph and Miss Anna Gregory of Easton, Mo.

**Miss McCoppin Visits "Wind Cave."**

Miss Beulah McCoppin, the daughter of Mr. and Mrs. C. A. McCoppin of 422 West Thompson street, who has been visiting in the west since June 14, had an interesting experience last week when she, with a party of friends, explored "Wind Cave," one of the natural wonders near Hot Springs, S. D. In a letter to the home folks, Miss McCoppin writes: "Have just returned from a trip up Battle mountain. We started at 5 o'clock, took our breakfast, and accompanied by a guide went to the summit and returned last night. Yesterday we went through the Wind Cave. We started in at 2 o'clock p. m. and came out at 5 p. m. We walked seven and a half miles through it. The deepest we were in was 650 feet. The temperature was 47 degrees. Going to the cave, the first eight miles we drove we went up 1,000 feet. The guide and our party went in a seven-passenger Cadillac, and it was hard pulling for the machine. The cave is certainly wonderful. Before we went in the guide posted us that it was a heavy fine to be caught taking anything out of the cave, as it is government porperty. Everyone carried candles while in. The distance down in some places is 1,500 feet. Not all of it is open to the public yet, as new routes are being constantly found and they are yet unexplored."

From Hot Springs, Miss McCoppin will go to Sylvan lake for a visit. She will not return to Maryville before the middle of September.

**Celebrates Seventy-Fourth Birthday.**

James M. Johnson celebrated his seventy-fourth birthday anniversary Saturday, and in honor of the event his children and their families gathered at the Johnson home, on East First street, Sunday and spent the day with their father. At noon a splendid dinner was served and the afternoon devoted to music and visiting. The gathering was a surprise to Mr. Johnson and those of his children and their families who enjoyed the day with him were Mr. and Mrs. Walter Johnson and son, Donald, of Pickering; Mr. and Mrs. Raymond Jones, living south of the city; Mr. and Mrs. W. T. Gray, Mr. and Mrs. John Johnson and daughter, Joyce Elaine; Mrs. L. C. Severs and son, Glen Maurice, and Miss Lois Johnson. Glen Maurice Severs and Joyce Elaine Johnson are grandchildren of Mr. and Mrs. W. T. Gray and great-grandchildren of Mr. Johnson. Mr. Johnson came to Nodaway county in 1867 from Tennessee, where he was born and grew to manhood. He purchased a farm near Maryville and made that his home until a few years ago, when he moved into Maryville. Mrs. Johnson died several years ago. Beside the children present Mr. Johnson has two sons, L. L. Johnson of St. Louis and E. A. Johnson of Colorado Springs, Col., and a daughter, Mrs. J. Lewis Crum of Fayette, Mo., who were unable to be present Sunday. He also has two children deceased. They are Mrs. Samuel K. Clark and Floyd O. Johnson. The children of Mrs. Clark, Ray, Garry and Byron, are now living at Pueblo, Col. Mr. Johnson has one brother, Frank Johnson of Orrsburg, who expected to be present Sunday but was kept away by the storm. Last year Mr. Johnson, accompanied by his daughter, Lois, spent about ten months visiting at the old home place in Tennessee and with relatives through the south. He enjoys fairly good health and the friendship of a wide circle of acquaintances during his long residence in the county.

**Farewell Gathering.**

Mr. and Mrs. A. W. Hawkins and daughter, Miss Ivy Bee Hawkins, entertained a party of guests last night at the Hawkins home as a farewell pleasure for a number of visiting friends, who have been attending the State Normal school and will leave this week for their homes. The hours were spent informally, followed by the serving of a dainty repast by the hostesses. The guests were Miss Isora Mutz, Miss Amy Callahan, Miss Marie Medsker, Miss Ada Brown, Miss Doris Callahan, Miss Alice Pemberton, Miss Jeanette Mutz, Miss Miriam Bleeck, Miss Clara Meyer, Miss Lucile Monday, Miss Opal Stith, Orlo Quinn, Forrest Larmer, Ray McPherron, I. B. Williams, Flemming Carpenter, John Mutz, Robert Venable, Earl Y. Poor and O. N. Gingrich.

**C. B. Garrison Leaves.**

C. B. Harrison of Rockford, Ill., who has been visiting his sister, Mrs. J. B. Robinson, and family, left for his home yesterday.

**Market Live Stock.**

Alfred Jewett and Herndon & Bishop, Nodaway county stockmen, marketed live stock in St. Joseph yesterday.

Alderman-Yehle Dry Goods Co.
WEST THIRD STREET, MARYVILLE, MO.

Advance Showing
of The New Fall Suits

The first shipment of New Tailored Suits for Fall has arrived and is now on display. The new models are sure to please you.

In the first place, they have all the best style features of the season. They are so good too, in every other way—materials, tailoring and finish—that we will take real delight in showing them to you.

It is a pleasure to any woman to be the first to wear the new styles, besides you get the benefit of an entire season's wear at no more cost than if you waited until the season was partly gone.

Come today and see how becoming the new styles really are.

## CRAIG FARM MANAGER LEAVES.

**Senator and Mrs. Anderson Craig to Country Home for Summer.**

A. Morse, who has been employed at the farm of Senator Anderson Craig, with his family, left today for their former home in Kansas City, Kan. This is the second time Mr. Morse has been in the employ of Mr. Craig. He came here a few years ago and took charge of the farm, later returning to Kansas City. After a sojourn at home he again returned to the Craig farm.

Senator and Mrs. Craig will occupy the farm residence for the summer.

The total area of cigar tobacco is 172,400 acres, compared with 172,900 acres in 1914, a decrease of 500 acres, or less than 1 per cent. New England and the Miami Valley district of Ohio show a substantial increase; all other districts show a falling off. The chewing, smoking, snuff, and export types show 1,132,000 acres, as compared with 1,035,600 acres, in 1914, an increase of 96,500 acres, or 9.3 per cent.

**Guest of Miss Clark.**

Miss Sarah Cobb of Bedford, Ia., arrived in Maryville today to visit her cousin, Miss Amy Clark, at the Linville hotel.

People Ask Us

What is the best laxative? Years of experience in selling all kinds leads us to always recommend

Rexall Orderlies

as the safest, surest and most satisfactory. Sold only by us, 10 cents.

Orear-Henry Drug Co.

Doing One Thing *and* Doing It Well

For Fall we have anticipated the season's requirements for correct dresses.

We are now showing the new Fall and Winter Fabrics

Make your selection early, there is an advantage in doing so.

# WARSAW READY FOR EVACUATION

## Russians Strip Polish Capital Bare Before They Go.

## EXODUS OF THE POPULATION.

**Teutons Capture Mitau, Capital of Courland, and Are Now Within Striking Distance of Riga—May Bar Road to the Sea.**

London, Aug. 3.—Warsaw is ready for the evacuation which was intimated by the Russian war minister in his address in the duma. For days there has been an exodus of the population. Factories, government institutions and hospitals have been moved and the city has been stripped of everything that might be of military value to the Teutons.

With the taking of Mitau and the favorable progress of the fighting east of Poniewesch, according to the Berlin statement, it would seem that communication by rail from Courland and Kovno eastward has been severed by the Germans.

With the ports of Memel, Libau and Windau already in their hands, should the Germans be successful in their quest of Riga they would shut Russia off entirely from the sea except by way of its northwesternmost ports.

While the situation immediately before Warsaw is reported by Berlin as unchanged, additional gains by the forces of the Teutonic allies are claimed by Berlin along the Narew in the Lomza region and on the remainder of that front to the Vistula, before Ivangorod and in numerous sectors in the southeast between the Vistula and the Bug.

**Germans Capture Mitau.**

Mitau, the capital of the Russian province of Courland, twenty-five miles southeast of Riga, has been occupied by German troops, according to the official statement issued by the German army headquarters staff.

Northwest of Lomza, capital of the province of Lomza, the statement adds, the German troops have reached the Narew river and are overcoming obstinate resistance on the part of the Russians.

Before Warsaw, the announcement says, the situation is unchanged.

## WARSAW IS EXCITED

**Rumor City Is to Be Destroyed by Russ Causes Panic.**

Warsaw, Aug. 3.—The intimation that the Vistula line was to be abandoned by the Russians and the beginning of the removal of factories, government institutions and hospitals, created intense excitement among all classes of the population of the Polish capital.

It was feared that the military authorities might deem the city a military necessity and would destroy a great part of the city to prevent its use by the Germans as a base.

Many wealthy residents left for the interior and many of those who remained sent their families out during the past fortnight.

The streets, which generally are thronged, became deserted. That period having passed with a realization that the city is to be spared those remaining have taken up their normal trend of living.

The French and Belgian consuls left the capital in the early days of German proximity, turning over their affairs to the American consul, Hernando De Soto.

**Colonel Desclaux Is Degraded.**

Paris, Aug. 3.—Colonel Francois Desclaux, ex-paymaster general of the French army, who was sentenced by a military court-martial to seven years solitary confinement, after being convicted on the charge of stealing military stores, was degraded at the military school without incident.

**Rural Auto Mail Delivery Begins.**

Washington, Aug. 3.—Two hundred and eight automobile rural delivery routes, distributed over eight states, went into operation. This means that approximately 11,440 miles of rural postroads will be traversed six days a week during August by automobile.

**German Torpedo Boat Destroyer Sunk.**

London, Aug. 3.—The British admiralty announced that a British submarine had returned and reported the sinking of a German torpedo boat destroyer, believed to be of the G-196 class, near the German coast. Its complement in normal times was seventy-three officers and men.

**Mexicans Eating Grass and Leaves.**

Washington, Aug. 3.—Charles J. O'Connor, Red Cross agent in Mexico City, reported food conditions as alarming, stating that some people were eating weeds, grass, leaves and dead horses and mules.

**1915 Cotton Crop Showing Decrease**

Washington, Aug. 3.—This year's cotton crop will be approximately 11,970,037 equivalent 500 pound bales compared with 16,134,930 bales last year.

**German Empress Leaves For Berlin**

Berlin, Aug. 3.—The German empress, after traveling through East Prussia, accompanied by the crown princess, has left Koenigsburg for Berlin.

**REAR ADMIRAL CAPERTON.**

United States Navy Officer In Control of Situation In Haiti.

**Redfield Orders Test of Steamers.**

Chicago, Aug. 3.—Secretary of Commerce Redfield stated that an equilibrium test of all passenger carrying steamers on the Great Lakes would be made and that the work of steamboat inspectors during the last fifteen years would be investigated.

**Four Deaths From Heat In New York.**

New York, Aug. 3.—Four deaths and a number of prostrations, caused by the excessive heat and humidity, were reported from various sections of New York city.

## WHY USE LIGHTNING RODS

**Government Points Out Value of Conductors and Ways to Attach Them to Buildings.**

A large number of letters have been received by the weather bureau at Washington asking for information about the value of lightning rods for farm buildings. "Ten questions and answers about lightning rods" is herewith given by that department of the government.

Do lightning rods really protect buildings?

Answer: Yes; but the rods must be of proper character, properly installed and properly grounded in relatively moist earth. Periodical inspection and maintenance in good condition are indispensable to efficient protection.

Do lightning rods on a building increase the danger of its being struck?

Answer: Opinion is divided; but a properly rodded house may be struck several times without injury, whereas a single stroke without protection afforded by the rods may cause disaster.

Should lightning rods be put up without insulators?

Answer: Without. Buildings with metal roofs, or wherein any metal construction employed is properly connected to earth, are already partly provided with lightning protection. If rods are added to such buildings the rods should be put in direct metallic connection with the roof and other metal work about the building wherever practicable. All down spouts should be led into metal pipes going into the earth to give the proper earth connection, or the spouts should otherwise be well grounded by use of wires or cables. Insulators are entirely unnecessary, and it is proper to have extended metal work in buildings, like heating and water pipes, all electrically connected together and all well grounded. This latter result is gained incidentally through connections made to water pipes, since the latter usually pass through the earth outside the building.

Are gilded or otherwise expensive points of platinum or special metal or of fanciful construction necessary?

Answer: No; not in the least. Sharp needlelike points are effective in dissipating small sustained electrical charges, but such electrical manifestations are perfectly harmless. The imagined superiority of such fanciful points is utterly valueless when the rod is struck by a real lightning flash. The useful qualities lightning rod points must possess are infusibility, mechanical strength and security of installation, and permanence and durability under prolonged exposure to the weather. Stout bluntly pointed iron rods three-eighths or one-half inch in diameter rigidly and securely fastened so as to project 1½ or 2 feet above the structure to which they are attached satisfy all the requirements.

What material is best for conductors or rods?

This question cannot be answered fairly in a single statement.

Because of its availability and cheapness, as well as its electrical properties, iron is one of the best materials for rods. Iron, however, rusts and deteriorates under prolonged exposure to the weather. This is only partly overcome by galvanizing; hence galvanized-iron lightning rods should be of ample size (not less than one-quarter inch in diameter) carefully installed and subjected to systematic inspection and repair.

Two-strand cable galvanized-iron fence wire of substantial size of the same style as barbed wire but without the barbs furnishes a very good material for cheap iron lightning rods. The presence of the barbs constitutes a rather serious inconvenience in handling and installing such a conductor, and no material benefit is derived from their presence.

Copper is better than iron not only on account of its indestructibility but also because of the softness and pliability, which make it easy to install. Scientists are not in accord in regard to the relative merits of the electrical properties of copper and iron, but in any case questions of cost, durability, and the like far outweigh minor differences in electrical properties.

Aluminum is a competitor for iron and copper for lightning rods. Its durability under exposure to weather is in its favor, but its fusibility makes it inferior to iron for points.

If low first cost is the controlling factor, galvanized-iron rods must be chosen, but subsequent inspections must be made and repairs become necessary.

If higher first cost is not an obstacle the choice should go to copper first or possibly aluminum.

Should lightning conductors be made in the form of solid rods, flat bars or bands, stranded twisted cables, woven stranded ribbons, or hollow twisted cables?

Answer: Any of the forms may properly be employed, or two or more forms may be employed in combination. Conductors should be put up in long continuous pieces as far as possible. Solid round wires one-quarter to one-half inch in diameter are best for this purpose. Conductors of a size larger than one-fourth inch, however, present difficulties in handling and installation if the rods are solid. It then becomes better to use stranded cables and other similar forms. Long continuous lengths, ample cross section combined with flexibility, and the ease of its installation over crooked courses render stranded cables, in general, better than any other form of conductor available.

Substantial iron points in combination with copper cables from five-sixteenths inch in diameter, for small farm buildings, to one-half in diameter for large important structures, form one of the best possible systems of conductors for lightning rod construction.

There is no good reason for purchasing other fanciful forms of cable at materially greater prices per pound than are asked for standard makes of cable of approximately the same cross section.

Must lightning rods be connected to the earth?

Answer: Yes; by all means, and most effectively. Just a few operators in the lightning rod profession have sought to impose upon the uninformed a system of ungrounded lightning rods. Such rods are a menace instead of a protection. It is impracticable to fully discuss here methods of making connections to earth. In general terms the conductor should be carried down into the earth and away from the building in a trench or other excavation, so as to reach and embed the conductor itself or plates attached thereto into permanently moist earth. Connections with water pipes or other metal work itself connected to earth constitute good grounds.

Are government buildings provided with lightning rods?

Answer: Yes; many of them, but naturally not every one.

Does the government use the material or the rods or the system of any particular agency?

Answer: No; there is nothing mysterious or exceptional about lightning rods, the material of which they are composed, or their construction and installation. Suspicion may well be aroused as to the reliability of those making extravagant claims of superiority for their particular wares to the exclusion of others.

What is the best arrangement of rods on a building?

Answer: A building completely screened and surrounded by and inclosed beneath a cage or network of substantial metallic conductors, all properly interconnected and joined to the earth, would be most effectively protected from lightning discharges. For ordinary purposes a far simpler system is adequate. For example, good protection is afforded by a conductor running along the ridge of a building and extending to the earth, either at the middle of the sides or, preferably, at each of the four corners. Points should rise above any prominent features of the building, such as chimneys or, in the absence of these features, from the ridge of the roof at intervals of 25 feet or thereabouts.

**Guests at Tobin Farm.**

John McShane and Charles Geary of Kansas City, who have been visiting at the home of Mr. McShane's grandmother, Mrs. J. Vaughn, went to Burlington Junction yesterday, where they will spend a few days at the Tobin farm, the guests of Mr. McShane's uncle, Thomas Tobin, and family.

**MRS. TRULLINGER IS WELL AND HAPPY**

Mrs. J. B. Trullinger of Norborne, Mo., was ill for months with derangements of the digestive tract. She suffered terrible pain and was seldom able to be about.

She took Mayr's Wonderful Remedy with results that most happily surprised her and astonished her physician.

Mrs. Trullinger lives on rural route 1, out of Norborne, and leads an active country life. She writes:

"I take great pleasure in telling you what Mayr's Wonderful Remedy has done for me. When I wrote you last March I was hardly able to be up at all. I endured awful suffering. I would get so bad I would become unconscious, and the nauseating spells I had would leave me as weak as if I had a long spell of sickness nearly as bad as typhoid.

"Words cannot express the appreciation I have for your medicine. I am now able to work all day long. All this summer and fall I have felt just fine, gaining in strength and flesh."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

# Lay-to for a spell and swing on this:

You'll start an old-pal-party via a pipe or a makin's cigarette quick as a flash, as soon as you realize it's a live bet to let your good money rub up against some Prince Albert tobacco. Why, it's like beating back to the bushes for old-home week, P. A.'s so friendly, so chummy-*like*.

You see, Prince Albert lets you hear the song of the joy'us jimmy pipe and the makin's cigarette all the day long! The patented process takes care of that—and cuts out the bite and parch!

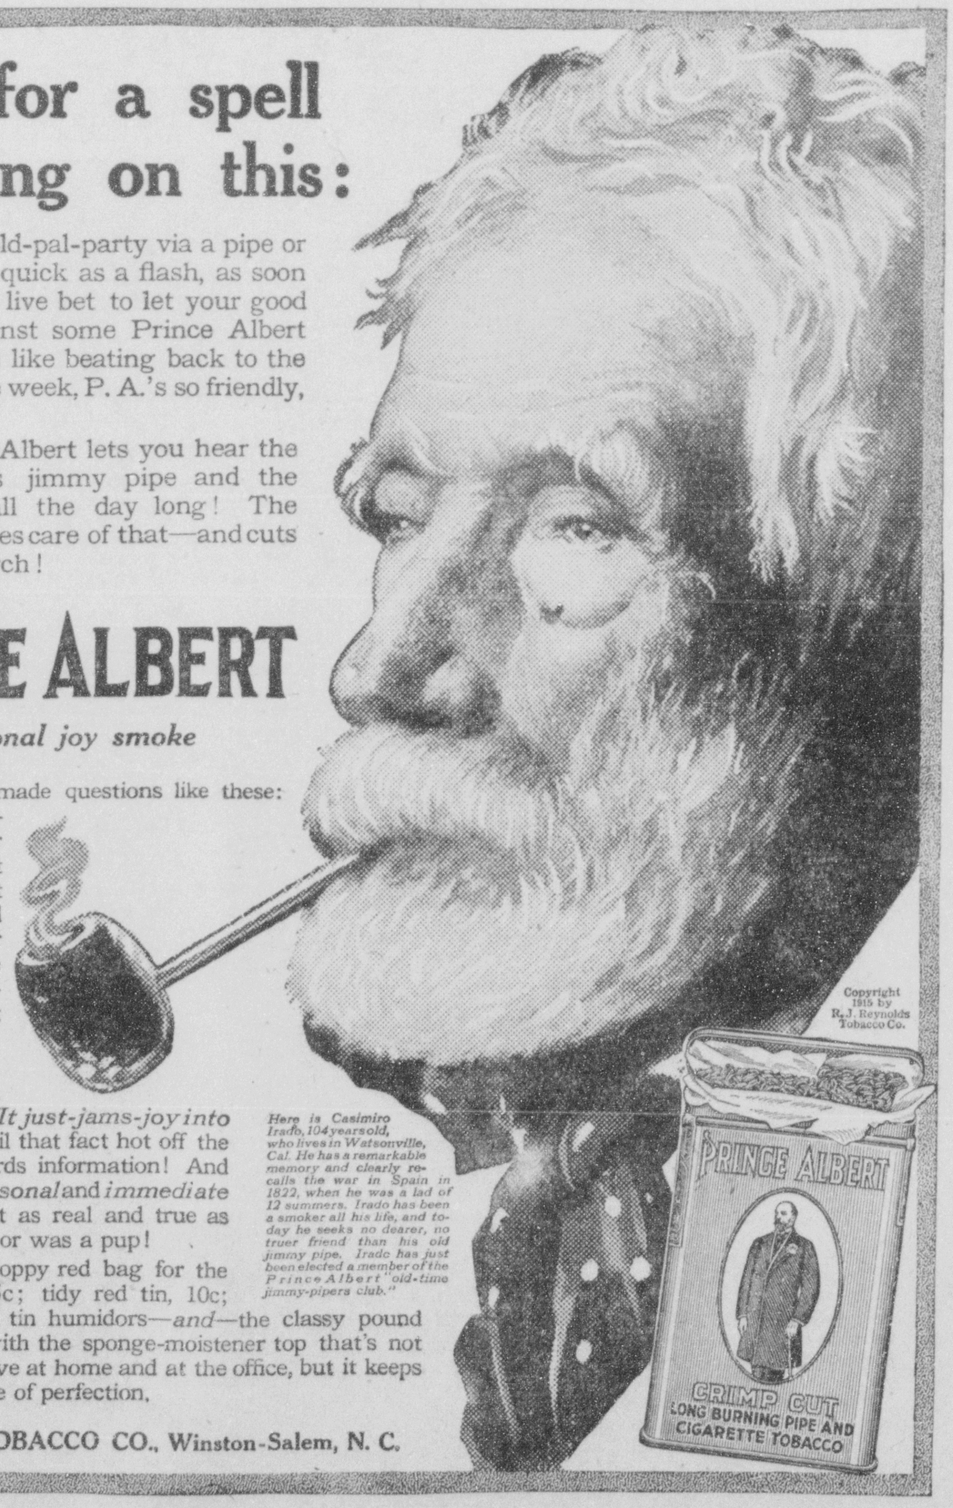

PRINCE ALBERT

*the national joy smoke*

just hands you home-made questions like these: Were *you* ever pipe-happy? Did *you* ever hit a brand that just pushed pleasure against your palate? The kind that sort of teased your smoke-appetite for some more fire-up, then another—and so on, right to the pillow-period!

Well, that's P. A., no matter how you hook it up—pipe or cigarette. *It just-jams-joy into your system!* You nail that fact hot off the bat, because it's case-cards information! And handed out to you for *personal* and *immediate* attention as being about as real and true as you've heard since Hector was a pup!

P. A. is sold in the toppy red bag for the price of a jitney ride, 5c; tidy red tin, 10c; pound and half-pound tin humidors—*and*—the classy pound crystal-glass humidor with the sponge-moistener top that's not only a joy'us thing to have at home and at the office, but it keeps P. A. in the highest state of perfection.

*Here is Casimiro Irado, 104 years old, who lives in Watsonville, Cal. He has a remarkable memory and clearly recalls the war in Spain in 1822, when he was a lad of 12 summers. Irado has been a smoker all his life, and today he seeks no dearer, no truer friend than his old jimmy pipe. Irado has just been elected a member of the Prince Albert "old-time jimmy-pipers club."*
